

October 2018

Dear Fairview community,

As of this week, the southwest parking lot and bus drop off area have been completed and are being used. The playground and soft play areas have also been completed and are in use.

Sod is being laid at the play fields. This area will remain closed until the sod is ready for foot traffic.

You may see contractors around the property doing final touches and checks over the next month. Construction work is very close to being complete!
