

August 29, 2017

Welcome back, staff and students!

A lot of construction work on our new school has happened this summer and you'll see some changes as you return.

- **The gym has been removed.** PE and music classes will now be held either outside (weather permitting) or in the room that was formerly the Media Center. The relocation of PE will not prevent students from receiving physical activity at light, moderate, and vigorous intensities for the same amount of time they had in the past.
- **The Media Center is now located in Room #B-6.** The room includes books and several mobile technology carts, so students can continue to explore literature using tangible books as well as accessing digital resources.
- **Parent and bus drop-off/pick-up are in the same areas** as last school year. No construction activities will take place on Harlow Ave. during drop-off and pick-up times.
