October 2017

An aerial photograph showing the construction of a new building at Troutdale Elementary. The central focus is a large rectangular area where the wooden skeleton of a new structure is being built. To the left, an existing concrete building is partially visible. The site is surrounded by residential houses, trees with autumn foliage, and a road with several yellow school buses. A white text box with a black border is overlaid on the lower-left portion of the image.

December 2017

An aerial photograph showing the construction of a new building at Troutdale Elementary. The main structure is under construction, with its wooden frame visible. To the right, there is an existing building with a flat roof. Several yellow school buses are parked in a lot in the foreground. Construction equipment, including excavators and trucks, is visible on the site. The surrounding area includes residential houses and trees.

February 2018

An aerial photograph of Troutdale Elementary school during a major renovation project in February 2018. The school building is a large, multi-winged structure. A significant portion of the building's exterior is covered in blue insulation panels, while other sections are clad in light-colored wood paneling. The roof is mostly flat and covered in a layer of snow. To the right of the main building is a smaller, older-looking structure with a grey roof. In the foreground, there's a parking lot with several cars and a playground area with colorful equipment. The surrounding area includes residential houses with snow-covered roofs and a large body of water in the background. The overall scene depicts a large-scale construction project in a suburban setting.

March 2018

An aerial photograph of Troutdale Elementary school during a major renovation project in March 2018. The main building is a large, multi-winged structure with a flat roof. Significant portions of the exterior walls and roof are covered in blue corrugated metal sheet piling, indicating ongoing construction or repair work. Orange safety fencing is strung around the perimeter of the construction area. The roof is cluttered with construction materials, including stacks of lumber, boxes, and various pieces of equipment. To the right of the main building, there is a smaller, more modern-looking building with a gabled roof and large windows, which appears to be a newer addition or a separate wing. The school is situated in a suburban neighborhood with several houses visible in the foreground and background. A large river flows along the top edge of the image, with a bridge visible in the distance. A large parking lot filled with numerous white vans or small trucks is located in the upper right corner. The overall scene depicts a busy construction site in a residential area.

April 2018

An aerial photograph of Troutdale Elementary school, a large, modern building with a dark grey roof and light-colored walls. The building is surrounded by lush green trees and residential houses. Several blue and green storage containers are placed on the roof. A white trailer is parked near the building, and a blue crane is visible in the foreground. The scene is captured from a high angle, showing the layout of the school and its surroundings.
