Aerial view - North (left), South (above)
October 2017

An aerial photograph showing the construction of a new building at Troutdale Elementary. The central focus is a large rectangular area where the wooden skeleton of a new structure is being built. To the left, an existing concrete building is partially visible. The site is surrounded by residential houses, many with autumn-colored trees. Several yellow school buses are parked along a street to the right of the construction area. Various construction vehicles, including trucks and excavators, are scattered around the site. A white text box with a black border is overlaid on the lower-left portion of the image.

December 2017

An aerial photograph showing the construction of a new building at Troutdale Elementary. The main structure is under construction, with its wooden frame and orange-colored exterior sheathing visible. To the right, there is an existing concrete building with a flat roof. The construction area is filled with various materials, including lumber, concrete blocks, and construction equipment like excavators and forklifts. Several yellow school buses are parked in a lot in the foreground, along with a white van and other vehicles. Residential houses are visible in the lower-left corner, and a dense forest of evergreen trees is in the upper-right background. A semi-transparent text box is overlaid on the left side of the image.

January 2018

An aerial photograph showing the construction of Troutdale Elementary. The main building is under construction, with its roof and walls made of light-colored wood framing. To the right, there's a large, flat-roofed structure, possibly a gymnasium or cafeteria, which appears to be completed or nearly completed. The construction site is surrounded by residential houses and trees. A road runs along the bottom of the construction area. Various construction materials and equipment are visible on the site.
