

BREMIK CONSTRUCTION

TROUTDALE ELEMENTARY CONSTRUCTION UPDATE

MAY/JUNE 2018

It's finally June, which means your summer break is right around the corner! As you were able to see on your recent tour through the new school, we have made a lot of progress on both the interior and exterior in the past couple of months.

The new kitchen, shown to the right, now has a walk-in cooler and freezer, and kitchen and dishwasher hoods have been installed.

Siding installation has continued around the building and has completed at the East side of the gym. The permanent roof and operable windows are all in.

The classrooms are being painted three fun colors - blue, purple, and orange! Tilework has started to go into the bathrooms, some of which are located right inside the classroom. Polished concrete floors will also be finished within the next month.

As soon as you leave for summer break our team will start demolishing the old school and will work on adding sports fields, landscaping, and parking where the old school once stood.

Things will look very different when you come back to school in September. We can't wait for you to see your brand new school! Enjoy your summer!
