

2016-2017 Special Education Report

April 2018

Dear Parents, Families and Community Members,

The Oregon Department of Education is proud to issue the twelfth annual special education report. Reported indicators and targets correspond to the information in the State Performance Plan (SPP) for Special Education that is required by the United States Department of Education.

As Oregon schools and districts continue to face many challenges, educators remain committed to providing the highest quality education for Oregon students. This report is not meant to tell you everything about your district, but it offers a starting point for discussions about where improvement might be needed and for celebrating successes in education for all of Oregon's children.

Sincerely,

Colt Gill, Deputy Superintendent of Public Instruction

Department of Education Notes

- 1 Data displayed reflect participation in regular statewide assessment (Oregon's general assessment) with and without one or more approved accommodations.
- 2 Results from the alternate statewide assessment measured against alternate achievement standards (Oregon's Extended Assessment) are not comparable to results from Oregon's Smarter Balanced Assessment.
- 3 All assessments are included in the 95% Federal participation target. Oregon does not measure the alternate statewide assessment against grade level standards.
- 4 The state target is based on an annual percentage increase in the number of districts that met the criteria.
- 5 All parents are not surveyed. A sampling of parents complete the Oregon Parent Survey.
- 6 The state target is based on an annual percentage reduction in the number of districts identified with a significant discrepancy. A "No" for the district is preferred.
- 7 Data displayed are Parent Survey data collected in 2014-2015 from a sampling of parents in your district.
