3. Enter your login credentials as you would do logging in through the website.

*If students are not able to log in, teachers should look in Synergy student information, under the "Additional" tab, and verify that student has Internet and Email permission. If the student does not, then the teacher can direct the student to the registrar to get the appropriate permission form, get it signed, and return it.

**Note: student names and birthdates as reflected in Synergy

If a student sends an email, their email address will show as: StudentID@students.rsd7.net

(Teachers may need to double-check this with some students who use a different name then what is reflected in Synergy.)
