

**March 18, 2022**

**RFP: DISTRICT-WIDE NUTRITION POS SYSTEM**

**Addendum #2**

**REQUEST FOR PROPOSAL**

**DISTRICT-WIDE NUTRITION POS SYSTEM**

**REYNOLDS SCHOOL DISTRICT #7**

The RFP for the above referenced project and the work covered are modified as follows, and except as set forth herein, otherwise remain unchanged and in full effect. This addendum is part of the RFP solicitation Documents for the above-named project and modifies the original RFP Documents posted March 4, 2022.

---

**Item #1 Questions and Answers:**

1. The bid states POS systems but the RFP does not call out anything specially regarding the technology hardware. Do you have any product specifications?

Current Nutrition Services Point of Sales consists of an all-in-one 22" touch screen, 8GB Ram, i5 processor, computer with the POS software installed on it and an external numeric keypad attached to it that works with the POS software application installed on the computer. These computers connect via WiFi to the internet (due to the locations there is not Ethernet jacks, often the POS need to be mobile) which is required for the POS software to properly function.

2. Is it ok for the POS hardware to be listed alone or would you prefer it be included with the Software Applications?

We would prefer it to be separate. We may not need to invest in new equipment.

3. Are you looking to replace the terminals?

We are not looking to replace the terminals unless it is needed. This will be determined during the review and evaluation process.
