

School-Level COVID-19 Management Plan
Template For School Year 2022-23

School/District/Program Information

District or Education Service District Name and ID: **Reynolds School District 7 (2182)**

School or Program Name: Reynolds Middle School

Contact Name and Title: Shelly Hamness, Principal

Contact Phone: 503-665-8166

Contact Email: shamness@rsd7.net

Additional documents reference here:

SECTION 1. Clarifying Roles and Responsibilities

Identifying roles central to communicable disease management. Clarifying responsibilities related to communicable disease response is a first step in keeping communities healthy and safe. In general, decisions of school health and safety reside with school and district officials. Together with local public health officials, school/district administrators should consult a variety of individuals when making decisions about health and safety in school.

Table 2. Roles and Responsibilities

School planning team members	Responsibilities:	Primary Contact (Name/Title):	Alternative Contact:
Building Lead / Administrator	<ul style="list-style-type: none"> Educates staff, families, and students on policies regarding visitors and volunteers, ensuring health and safety are being maintained. In consultation with district leadership and LPHA staff, determines the level and type of response that is required/necessary. Acts as key spokesperson to communicate health-related matters within school community members, health partners, and other local partners. 	Shelly Hamness, Principal	Dr. Christopher Ortiz, Deputy Superintendent

School planning team members	Responsibilities:	Primary Contact (Name/Title):	Alternative Contact:
School Safety Team Representative (<i>or staff member knowledgeable about risks within a school, emergency response, or operations planning</i>)	<ul style="list-style-type: none"> • Trains staff at the start of the academic year and at periodic intervals on communicable disease management procedures. • Leads debrief of communicable disease event, informing continuous improvement of the planning, prevention, response, and recovery system. 	Garrett Jellesma, Assistant Principal	Dr. Christopher Ortiz, Deputy Superintendent
Health Representative (<i>health aid, administrator, school/district nurse, ESD support</i>)	<ul style="list-style-type: none"> • Supports building lead/administrator in determining the level and type of response that is necessary. • Reports to the LPHA any cluster of illness among staff or students. • Provides requested logs and information to the LPHA in a timely manner. 	Dawn McCollum, Nurse	Dr. Christopher Ortiz, Deputy Superintendent
School Support Staff as needed (<i>transportation, food service, maintenance/custodial</i>)	<ul style="list-style-type: none"> • Advises on prevention/response procedures that are required to maintain student services. 	Shelly Hamness, Principal Garrett Jellesma, Assistant Principal Tracy Vanden Berg, Assistant Principal	Dr. Christopher Ortiz, Deputy Superintendent

School planning team members	Responsibilities:	Primary Contact (Name/Title):	Alternative Contact:
<p>Communications Lead <i>(staff member responsible for ensuring internal/external messaging is completed)</i></p>	<ul style="list-style-type: none"> Ensures accurate, clear, and timely information is communicated including those who may have been exposed, a description of how the school is responding, and action community members can take to protect their health. Shares communications in all languages relevant to school community. 	<p>Stephanie Field, Executive Director of Communications & Community Relations</p>	<p>Dr. Christopher Ortiz, Deputy Superintendent</p>
<p>District Level Leadership Support <i>(staff member in which to consult surrounding a communicable disease event)</i></p>	<ul style="list-style-type: none"> Has responsibility over COVID-19 response during periods of high transmission. May act as school level support to Building lead/Administrator activating a scaled response. Responds to media inquiries during the communicable disease event and ensures that those responsible for communication are designated speakers. 	<p>Dr. Christopher Ortiz, Deputy Superintendent</p>	<p>Stephanie Field, Executive Director of Communications & Community Relations</p>
<p>Main Contact within Local Public Health Authority (LPHA)</p>	<ul style="list-style-type: none"> Notifies Building Lead/Administrator of communicable disease outbreak and offers recommendations for appropriate response. Key spokesperson to communicate on health-related matters with community members, health facility staff, and other local community partners. 	<p>Multnomah Education Service District (MESD) Nursing Staff and Multnomah County Health Representatives</p>	<p>Dr. Christopher Ortiz, Deputy Superintendent</p>
<p>Others as identified by team</p>			

Section 2. Equity and Mental Health

Preparing a plan that centers equity and supports mental health

Preparing a school to manage COVID-19 requires an inclusive and holistic approach to protect access to in-person learning for all students. In this section suggested resources are offered to help prepare for COVID-19 management while centering an equitable and caring response.

Centering Equity

Identify existing district or school plans and tools that can be utilized when centering equity in prevention, response, and recovery from incidents of COVID-19 (e.g., district or school equity plans/stances/lenses/decision tools, Equity Committee or Team protocols, district or school systems for including student voice, existing agreements or community engagement or consultation models, Tribal Consultation¹, etc.)

- [Reynolds School District Strategic Plan and Results Dashboard \(includes new Mission with Equity statement\)](#)
- [Reynolds School District COVID-19 Community Levels New Guidance](#)
- [Reynolds School District COVID-19 Information Dashboard](#)

Suggested Resources:

1. [Equity Decision Tools](#) for School Leaders
2. [Oregon Data for Decisions Guide](#)
3. [Oregon's COVID-19 Data Dashboards](#) by Oregon Health Authority COVID-19
4. [Data for Decisions Dashboard](#)
5. [Community Engagement Toolkit](#)
6. [Tribal Consultation Toolkit](#)

¹ Tribal Consultation is a separate process from stakeholder engagement; consultation recognizes and affirms tribal rights of self-government and tribal sovereignty, and mandates state government to work with American Indian nations on a [government-to-government](#) basis.

Table 3.

Centering Equity

OHA/ODE Recommendation(s)	Response:
<p>Describe how you identify those in your school setting that are disproportionately impacted by COVID-19 and which students and families may need differentiated or additional support.</p>	<p>Schools will utilize the state provided framework for equity decision making in addition to data dashboards specifically disaggregated for our communities most impacted by COVID-19 and it is secondary and tertiary effects within our Student Support Team / Rapid Response Team protocols. Additionally, our student information system “Synergy” has been adopted to have its Analytics and MTSS options that allow school-based sites to dive deep into data due to its proactive data representation that can be aggregated to target our student populations most impacted by the primary, secondary, and tertiary effects of the COVID-19 virus.</p> <p>Our staff and Student Support Team will use the new Analytics and MTSS options in Synergy in addition to data obtained from data dashboard, that will allow them to mine data that will help us locate our most impacted students/families. Reynolds Middle School will reach out to our community via a newsletter that will inform our families of resources available to them. It will include where /when vaccinations are available. During Foundations class, there will be lessons that educate students on where they can receive support. Our counselors, social worker, MTSS TOSA can all help to identify and support.</p>
<p>Describe the process by which the school will implement a differentiated plan for those that are disproportionately impacted, historically underserved or at higher risk of negative impacts or complications related to COVID-19.</p>	<p>Our Student Support Teams or Rapid Response Teams will host individualized conversations as part of our MTSS Framework. Within these protocols, students and their families are discussed at an individualized level with multiple stakeholders invited to the table to ensure the student and family receive adequate support for their needs. Primarily facilitated by the MTSS TOSA and initiated by the classroom teacher or school-based administrator – the SST/RRT meeting utilizes data, parent/guardian/advocate voice, resources from school counselors and social workers, school health professionals (nurses etc.) county and district level support to provide a plan of support for the student and then is documented within the Student Information system and revisited every six weeks. Additionally, OHA resources and information would be included to provide a plan of support for students with deep collaboration alongside our social work teams.</p> <p>In addition to disaggregated data obtained from Synergy and data dashboard, our Student Engagement Coach will have further attendance data that will show any disproportionality with our historically underserved and who has been impacted the most. Through an effective communication system and biweekly meetings set up with our counselors, social worker, MTSS TOSA, and community partners, we can set up plans that will accommodate our individual families/students in need. Our staff will identify any students they feel have been impacted and refer those students to our MTSS TOSA. During SST meetings, teachers, admin, social worker, counselor, and any other needed staff, will create a plan that will help support our students most impacted.</p>
<p>What support, training or logistics need to be in place to ensure that the named strategies are understood, implemented, and monitored successfully.</p>	<p>The MTSS Framework that encompasses the above protocols will be supported through our district onboarding process. MTSS TOSAs are specifically trained to facilitate the process. School Social workers and Counselors will be given ongoing training and resources to be able to navigate the menu of services provided for families on a district, local, state, and national levels.</p> <p>Reynolds Middle staff (counselors, social worker, MTSS TOSA) will receive training on how to mine data using Synergy that allows staff “to aggregate data that targets our student population most impacted by the primary, secondary, and tertiary effects of the COVID-19 virus.” In addition, they will receive training and resources that are available through the district, local community partners, the state, and the national level. Training will be provided by administration and district support the first month of school. The data will be reviewed at the biweekly meetings.</p>

Schools are encouraged to continue to prioritize cultivating care, connection, and community to support the mental, emotional, and social health and well-being of students, families, staff, and administrators.

Identify existing district or school plans and tools that can be utilized in supporting student and staff wellbeing and mental health during prevention, response, and recovery from incidents of COVID-19 (e.g., counseling services; partnerships with community mental and behavioral health providers; school district suicide prevention, intervention, and postvention plan; School Based Health Center resources; tribal resources, etc.)

- Counselors and School Based Social Workers assigned to student cases via SST
- Partnerships with Trillium Family Services and Multnomah County Mental Health
- Partnerships with MESD “Safe and Connected Schools” for further Professional Development and Behavioral Support
- District and MESD Flight Team and Crisis Response Protocol

Suggested Resources:

1. ODE [Mental Health Toolkit](#)
2. [Care and Connection](#) Program
3. Statewide [interactive map of Care and Connection examples](#)
4. [Care and Connection District Examples](#)
5. Oregon Health Authority [Youth Suicide Prevention](#)

Table 4. Mental Health Supports

OHA/ODE Recommendation(s)	Response:
Describe how you will devote time for students and staff to connect and build relationships.	<p><i>A twenty-minute Foundations class will be offered every morning where time will be devoted to educating our students and offering teachers an opportunity to connect on a more personal level. There will be SEL lessons provided by our counselors as well lessons provided through AVID that will encourage discourse between students and teachers which create connections. It will be through game playing, self-disclosing conversations, goal setting and genuine conversations. We have several events planned during the year that will bring families into the building. This will give all staff the opportunity to connect with the families as well as give the family time to build relations within their own community. Professional Development will be offered to encourage staff to connect on a deeper level with our students via Foundation class or students’.</i></p>

OHA/ODE Recommendation(s)	Response:
<p>Describe how you will ensure class time, and individual time if needed, for creative opportunities that allow students and staff to explore and process their experiences.</p>	<p>The Foundations class that is offered each morning will allow time for students and staff to explore and process experiences. If special time is needed, Admin, MTSS TOSA, or counselors can step into a teacher's class to free up an extra 15 minutes of needed time for a teacher to have that needed 1:1 time with a student.</p>
<p>Describe how you will link staff, students and families with culturally relevant health and mental health services and supports.</p>	<p>Program Administrators for School Culture and Climate will work with school-based teams to support:</p> <ul style="list-style-type: none"> • Beginning of the year resource fair to introduce schools and families with services available in the community • Student Support Teams/ Rapid Response Teams will follow protocols to refer students in need of additional support <p>Our staff (Admin, MTSS TOSA, counselors, social worker, school psychologist) will identify any students they feel have been impacted and refer those students to our SST Team. The team will create a plan and make any connections to family that are necessary for our students' continued success. There will be bi-weekly newsletters sent out to our community that will identify any resources available to them. At our registration days in August and our back-to-school night in September, there will also be those resources available to our families. In addition, our community partners will also be there providing immediate assistance and information. Our Culture and Climate team will work together to make the school a positive and welcoming environment for our students, families and community throughout the year.</p>
<p>Describe how you will foster peer/student lead initiatives on wellbeing and mental health.</p>	<p>Program Administrators for School Culture and Climate will work with school-based teams to support:</p> <ul style="list-style-type: none"> - "SOSA" Students on Special Assignment Teams to promote Anti Bullying, Well Being, and Mental Health Awareness/First Aid - Familial Partnerships to address student needs within belonging, inclusion and emotional/psychological safety. <p>Reynolds Middle school's Climate and Culture Team will work to ensure students are properly educated in policies addressing Anti Bullying, Well Being, and Mental Health Awareness/First Aid. There will also be lessons presented during Foundations class as well as health class.10 Restorative practices will be used by admin, counselors, and staff when applicable. Restorative circles will be used in classrooms as well as Foundations classes. Counselors will mentor a peer mediation program this year.</p>

Section 3. COVID-19 Outbreak Prevention, Response & Recovery:

Implementing mitigation activities, responding to periods of increased transmission, resuming baseline level mitigation, and debriefing actions to improve the process

Planning for and implementing proactive health and safety mitigation measures assists schools in reducing COVID-19 transmission within the school environment for students, staff, and community members. COVID-19 will continue to circulate in our communities and our schools for the indefinite future. Schools will utilize different mitigation measures based on COVID-19 transmission within their facilities and communities. In the following section, teams will document their school's approach to the CDC, OHA and ODE advised health and safety measures at baseline, during increased COVID-19 transmission, and as they roll back the increased mitigating measures, incorporating lessons learned.

Suggested Resources:

1. [CDC Guidance for COVID-19 Prevention in K-12 Schools](#)
2. [Communicable Disease Guidance for Schools](#) which includes information regarding
 - Symptom-Based Exclusion Guidelines (pages 8-12)
 - Transmission Routes (pages 29-32)
 - Prevention or Mitigation Measures (pages 5-6)
 - School Attendance Restrictions and Reporting (page 33)
3. [COVID-19 Investigative Guidelines](#)
4. [Planning for COVID-19 Scenarios in School](#)
5. [CDC COVID-19 Community Levels](#)
6. [Supports for Continuity of Services](#)

Table 5.

COVID-19 Mitigating Measures

<p>OHA/ODE Recommendation(s) Layered Health and Safety Measures</p>	<p>BASELINE MEASURES: describe what mitigating measures will the school implement all of the time, each and every day of the school year to reduce the spread of COVID-19 and protect in-person instruction?</p>
<p>COVID-19 Vaccination</p>	<p><i>CDC, OHA, and ODE recommend COVID-19 vaccination for all eligible individuals. Please include whether your school will offer COVID-19 vaccine clinics or notices about where to access vaccines in your community.</i> Vaccination clinics will continue to take place directly in the school community by partnering with East County Community Health. Past clinics have been available through partnership with Oregon Health and Science University (OHSU) and Multnomah County Health Department. When clinics are available, they are shared with each student and family through e-mail notification along with promoting to the school-wide community through social media platforms.</p>
<p>Face Coverings</p>	<p>Reynolds will follow the current statewide optional face covering guidance except in health care settings in schools like health rooms and Student Health Centers where face covering will still be mandatory. The Division of District Operations has issued updated policy memoranda on the optional face covering guidance and works with schools and non-school work locations to ensure employees understand the current guidance. The Office of Communications and Community Relations has provided messaging to parents/guardians.</p>
<p>Isolation</p>	<p>When students are identified with restrictable diseases or excludable symptoms, they should be separated from the well-population, in an appropriate space until they can be dismissed to home. This isolation space should be separated from the healthcare area used to assess and treat injured and non-symptomatic children or to provide medication management and care of chronic healthcare conditions. As part of our operating procedures during in-person learning, every school identified an appropriate care space (if not the healthcare area) for students identified with restrictable diseases or excludable symptoms. These operating procedures have continued this school year.</p>
<p>Symptom Screening</p>	<p>Students and staff are reminded of the common symptoms of COVID-19 and continue to check on their own health. If they are experiencing any COVID-19 like symptoms, they can complete the Symptom Tracking Tool (STT) with the assistance of a front office staff member at each school. The school nurse will review their results and follow-up to recommend next steps. If the nurse determines they have COVID-19 symptoms, they will recommend the individual to test for COVID-19 and report back the results.</p>
<p>COVID-19 Testing</p>	<p><i>OHA offers both diagnostic and screening testing programs to all public and private K-12 schools in Oregon. Please include whether your school will offer diagnostic and screening testing, respectively. Through the Oregon Health Authority (OHA), Reynolds has ordered school-site testing kits for all schools and Administration buildings for students/staff. Any student/staff who needs a COVID-19 test can get one in their building, or can go to their personal health care provider.</i></p>
<p>Airflow and Circulation</p>	<p>HVACs are maintained and functional in all buildings. Additional HEPA filters have been distributed to classrooms at each school building to ensure high quality air flow. The Facilities Maintenance Dept. has ensured that all of our HVAC systems are serviced on a regular basis to ensure they are operating to specifications. The Division of District Operations will also be working with schools and their staff to adopt the EPA Tools for Schools recommendations so everyone is collaboratively adopting best practices and working together to ensure healthy indoor air quality.</p>
<p>Cohorting</p>	<p>Students will stay in their respective classes/cohorts as much as possible. Assigned cohorts and seating assignments are tracked within the Student Information System.</p>
<p>Physical Distancing</p>	<p>Students will be social distanced at least 3 ft. as often as possible at school. Desks will be spaced out accordingly in classrooms and schools will have signs marking walk ways to show which direction to walk so students/staff are appropriately spaced out. School site administrators will be working to distance students at least 3 feet as often as possible at schools.</p>

OHA/ODE Recommendation(s) Layered Health and Safety Measures	BASELINE MEASURES: describe what mitigating measures will the school implement all of the time, each and every day of the school year to reduce the spread of COVID-19 and protect in-person instruction?
Hand Washing	Handwashing and respiratory etiquette will be a constant reminder at each school. Staff will remind students how to correctly wash hands and keep any coughs into their sleeves. The Office of Communications and Community Partnerships has provided information to parents/guardians on important COVID-19 safety precautions. School sites have also communicated to parents/guardians and students on the importance of handwashing and respiratory etiquette. Hand sanitizer and facial coverings have been supplied to schools.
Cleaning and Disinfection	All high touch surfaces in schools and buildings are sanitized and cleaner thoroughly by Custodial staff each day. Areas where students and staff eat and or use more frequently will be wiped and sanitized more often, and as often as feasibly possible throughout the school/work day. If an on-site positive COVID-19 case is confirmed, additional cleaning and sanitizing will be done before the next day when students and staff return to the school site.
Training and Public Health Education	Student and staff will be regularly trained on the benefit of proper hygiene (hand washing, sanitizing surfaces, covering mouth/nose when sneezing/coughing). They will be reminded to provide additional space to their classmates and co-workers and to stay home when not feeling well whether it's COVID-19 symptoms or not. Reynolds SD will work with MESD and the MESD Nursing staff at each school for additional resources and helpful educational products.

Table 6. COVID-19 Mitigating Measures

OHA/ODE Recommendation(s) Layered Health and Safety Measures	MEASURES DURING PERIODS OF HIGH TRANSMISSION*: describe what mitigating measures the school will implement during periods of high transmission to reduce the spread of COVID-19 and protect in- person learning? *Within the community, high transmission is defined at the county level through CDC COVID-19 Community Levels . Within a school, high transmission may be defined as high absenteeism or unusual spread within a cohort (e.g., a large outbreak in a classroom).
COVID-19 Vaccination	A specific vaccination clinic will be planned in the school community utilizing established community partners. Students, grades K-12, can also receive COVID-19 vaccinations at any time at the Reynolds High School Student Health Center throughout the year.
Face Coverings	<i>CDC, OHA, and ODE recommend universal use of face coverings during periods of high transmission. Please include whether your school will implement this critical recommendation.</i> Schools will follow district requirements for face coverings based on Multnomah County Health Department and Oregon Health Authority (OHA) requiring face covering in schools. Schools will consult with Student & Family Services during periods of high transmission.
Isolation	Students who are currently symptomatic for COVID-19 will continue to be isolated from the well population in alignment with procedures from the Center for Disease Control and Prevention (CDC) and Multnomah County Health Department.
Symptom Screening	The same procedures will be utilized. Symptom screening tools will be heavily relied on.

OHA/ODE Recommendation(s) Layered Health and Safety Measures	MEASURES DURING PERIODS OF HIGH TRANSMISSION*: describe what mitigating measures the school will implement during periods of high transmission to reduce the spread of COVID-19 and protect in- person learning? <i>*Within the community, high transmission is defined at the county level through CDC COVID-19 Community Levels. Within a school, high transmission may be defined as high absenteeism or unusual spread within a cohort (e.g., a large outbreak in a classroom).</i>
COVID-19 Testing	Testing will be made available at the school site if there is an on-site individual experiencing symptoms. Testing kits continue to be sent home as Oregon Health Authority (OHA) sends additional kits to school districts to distribute to each school and student.
Airflow and Circulation	HVAC systems and air purifiers will continue to be used at a high level.
Cohorting ²	<p><i>Schools should notify their LPHA about unusual respiratory disease activity if the following absence thresholds are met and at least some students are known to have influenza or COVID-like symptoms:</i></p> <ol style="list-style-type: none"> <i>1. At the school level: ≥ 30% absenteeism, with at least 10 students and staff absent</i> <i>2. At the cohort level: ≥ 20% absenteeism, with at least 3 students and staff absent</i> <p>Cohorting will be relied on to keep small groups of students together and ensure there is not intermixing. Cohorts will be tracked in the Student Information System for contact tracing purposes.</p>
Physical Distancing	Same physical distancing practices will be maintained.
Hand Washing	Additional reminders will be made for hand washing opportunities and hand sanitizer will be made available in all high touch points in the schools/buildings.
Cleaning and Disinfection	When more COVID-19 cases appear, custodial crews will implement deeper cleaning protocols to ensure locations where symptomatic individuals were in the school have been thoroughly sanitized.
Training and Public Health Education	Reynolds SD will work with MESD to attain additional resources and educational opportunities with students and staff for additional mitigations.

² Cohorting refers to establishing a consistent group of students that stay together for a significant portion of the school day. Examples include stable mealtime cohorts, classrooms, table groups, lunch bunches, and other group situations. Cohorts should be as small as feasible to minimize exposure.

Table 7.

COVID-19 Mitigating Measures

<p>OHA/ODE Recommendation(s) Layered Health and Safety Measures</p>	<p>STEPS FOR GRADUAL RETURN TO BASELINE RESPONSE: describe how does the school will gradually return to a baseline response. Describe how the school team will decide what measure(s) should remain at an increased level which others may not, prioritizing some measure(s) over others. How does the school reduce or make permanent implementation of enhanced mitigation measures once high transmission has ended?</p>
<p>COVID-19 Vaccination</p>	<p>Regular vaccination opportunities will be made available to students, staff, and the community.</p>
<p>Face Coverings</p>	<p>Optional masking will be implemented.</p>
<p>Isolation</p>	<p>Symptomatic individuals will continue to be told to stay home away from the well-population.</p>
<p>Symptom Screening</p>	<p>Symptom screening measures will remain in place.</p>
<p>COVID-19 Testing</p>	<p>COVID-19 testing programs will remain in place.</p>
<p>Airflow and Circulation</p>	<p>HVAC systems will continue to run at their full efficiency.</p>
<p>Cohorting</p>	<p>Cohort groups will continue to stay as small and in-tact throughout the day as possible. As baseline returns, there will be more opportunities for inter mixing cohorts for social emotional purposes in the school.</p>
<p>Physical Distancing</p>	<p>Reminders to keep certain distances will remain in place as much as possible.</p>
<p>Hand Washing</p>	<p>Hand washing and basic hygiene reminders will remain in place.</p>

OHA/ODE Recommendation(s) Layered Health and Safety Measures	STEPS FOR GRADUAL RETURN TO BASELINE RESPONSE: describe how does the school will gradually return to a baseline response. Describe how the school team will decide what measure(s) should remain at an increased level which others may not, prioritizing some measure(s) over others. How does the school reduce or make permanent implementation of enhanced mitigation measures once high transmission has ended?
Cleaning and Disinfection	Custodial staff will continue to clean high touch surfaces, but not do the deeper cleaning as often.
Training and Public Health Education	Training will be more reminder based and keep certain measures at the front of mind.

PRACTICING PLAN TO IMPROVE PROCESS

Training exercises are essential to preparedness ensuring individuals understand their role in a communicable disease event. Exercises can also help identify gaps in the planning, thereby building upon and strengthening the plan over time. Schools, districts, and ESDs should schedule to exercise this plan annually and when any revisions are made to update the plan. The plan, or component(s) of the plan, can be tested through conversations, practice exercises, or other activities.
