Reynolds School District Administration Offices 1204 NE 201st Avenue Fairview, OR 97024 503.661.7200 • FAX 503.667.6932

December 17, 2020

To Board of Education and Citizens of the Reynolds School District:

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the Reynolds School District (Multnomah County School District No. 7) for the fiscal year ended June 30, 2020. This report is prepared in conformance with generally accepted accounting principles (GAAP) as set forth by the Governmental Accounting Standards Board (GASB).

The District's Finance Department prepared this report, and management assumes the responsibility for the completeness, reliability, and accuracy of all the information presented.

The District's management has established a comprehensive framework that is designed both to protect the assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statement in conformity with generally accepted accounting principles in the United States of America (GAAP). Since the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Awards

The district submitted the Comprehensive Annual Financial Report to Government Finance Officers Association (GFOA) and Association of School Business Officials International (ASBO) for submission for the financial rewards. For the 2018-19 Comprehensive Annual Financial Report the District did receive the Certificate of Achievement for Excellence in Financial Reporting from GFOA and ASBO. The Certificate of Achievement is the highest form of recognition in governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management.

The district will be submitting the 2019-20 Comprehensive Annual Financial Report to both GFOA and ASBO for consideration of the award.

Independent Audit

The provisions of Oregon Revised Statutes require an independent audit of the financial records and fiscal affairs of the District. The auditors selected by the Board of Education, Pauly, Rogers and Company, P.C., have completed their audit of the financial statements and, accordingly, have issued an unmodified ("clean") opinion on the Reynolds School District's financial statements for the year ended June 30, 2020. The independent auditor's report is located at the front of the financial section of this report.

The Single Audit Act of 1984 and the Single Audit Act Amendments of 1996 require state and local governments that expend \$750,000 or more in federal assistance in a year have a special form of audit conducted for that year. Reynolds School District has issued a report on these requirements and the requirements of the implementing circular, U.S. Office of Management and Budget's Circular A-133, Audits of State and Local Government. Pauly, Rogers and Company, P.C. has also provided various required reports. These reports are in the Single Audit Section of this report.

Management's Discussion and Analysis

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District MD&A can be found immediately following the independent auditor's report.

PROFILE OF THE DISTRICT

Mission Statement:

Each graduate embraces lifelong learning and applies skills in technology, global literacy, creativity, and critical-thinking to enhance family, career, and community.

Vision:

Each and every child prepared for a world yet to be imagined.

General Background

Reynolds School District was confirmed in 1954 as a consolidation of the Fairview, Troutdale, and Wilkes elementary school districts. In 1975, Rockwood School District merged with Reynolds.

The District has 11 elementary, three middle, one high school, one alternative school and six alternative programs, serving 10,859 students from a diverse geographic

region and from various backgrounds. The students of Reynolds speak more than 68 languages.

The District also has three sponsored charter schools. In May of 1999, the State of Oregon passed Oregon's Charter School Law (ORS 338) which permits parents, teachers, or community members to contract with the school District or the State as a sponsor for the operation of a charter school. The charter schools are financed by a portion of the State School Funds distributed to the District and any revenue they can raise themselves. The District is allowed to withhold 5-20% of its State School Funds, per Average Daily Membership Weighted (ADMw). The District is legally required to provide Special Education and English Language Development to its students that meet state and federal requirements and has provided 5.8 full-time equivalent teachers and specialists working at the Charter Schools. The District has no equity interest in any of the charter schools, and all are considered legally separate organizations.

The high school consistently ranks as one of the largest, in terms of student population, in the state. Reynolds High School students may also attend the Center for Advanced Learning, a charter school partnership between four neighboring districts (Centennial, Corbett, Gresham-Barlow and Reynolds), where students can choose to focus on health sciences, engineering or computer science.

District Structure

The District, a fiscally independent entity, is organized with a seven-member elected Board of Directors and a board appointed budget committee. The School Board sets district policies, employs staff and dedicates resources. It is the chief governing body and is exclusively responsible for its public policies and accountable for fiscal oversight. The chief administrative officer of the District is the superintendent who is appointed by the Board.

District management includes a superintendent, two chief officers, and 51.5 principals, vice-principals, and district administrators. The District employs 1,179.16 full-time equivalent (FTE) personnel, including principals, vice-principals, administrators, teachers, supervisors, secretarial staff, bus drivers, maintenance personnel, cafeteria staff and other support staff.

Under Oregon State law, school districts are independent municipal corporations empowered to provide elementary and secondary educational services for the children residing within their boundaries. The District discharges this responsibility by building, operating and maintaining school facilities, developing, and maintaining approved educational programs and courses of study, including career/technical educational programs, and programs for English language learners and special needs students, and providing for transportation and feeding of students in accordance with District, State, and Federal programs. This report includes all funds of the District.

Geography and Population

The District spans from 141st Avenue to the Sandy River and from the Columbia River on the North to SE Market Street and SE Stark Street to the South. The district serves Portland, Gresham, Fairview, Wood Village, and Troutdale, and is a mix of urban and rural residential, high tech manufacturing and farmland.

APPROPRIATIONS AND BUDGETARY CONTROLS

The Board is required to adopt a final budget by no later than the close of the fiscal year. The Oregon Department of Revenue govern the District's budget to ensure that the District remains in compliance with Oregon Budget Law. The annual budget serves as a management tool to enhance performance efficiency and effectiveness, a financial system to account for revenues and expenditures, and a control mechanism to ensure public money is spent as it is authorized. The budget also provides the authority to levy property taxes.

The entire Board, together with seven appointed residents of the school district, serves as the District's Budget Committee. The role of the Budget Committee is to help assure that the District Budget Document and fiscal practices address the budget goals set by the Board of Education.

Consistent with Oregon Budget Law and Oregon Department of Education Chart of Accounts, expenditures are appropriated for each legally adopted annual operating budget as follows:

Instruction
Support Services
Community Services
Facilities Acquisition and Construction
Debt Service
Operating Contingencies
Fund Transfers
Unappropriated Ending Fund Balance

Budgetary appropriations may not be legally over-expended except in the case of reimbursable grant expenditures and trust monies which could not be reasonably estimated at the time the budget was adopted. After budget approval, the Board may approve supplemental appropriations if any occurrence, condition or need exists which had not been anticipated at the time the budget was adopted. Supplemental budgets must be submitted to the Board for approval by the Board.

Cash Management

Through the year, cash not required for current operations is invested in the State of Oregon Local Government Investment Pool.

FACTORS AFFECTING FINANCIAL CONDITION

Statewide Revenue

Over the past two decades, several citizen initiatives have changed how Oregon funds public education starting with Measure 5 in 1990. The property tax limitations enacted under Measure 5 and the later Measures 47 and 50 shifted the primary burden of paying for K–12 education from local property taxpayers to the state General Fund. This shift led the Legislature in 1991 to establish a school funding equalization formula. That funding formula, largely based on student enrollment numbers and student demographics, determines how much money each school district will receive from the State School Fund to fill the gap between the district's local revenue (property taxes) and its equalization target under the formula. This shift affected how funds are provided to public schools, making them more dependent on the overall economy of Oregon.

Global Pandemic

Starting in March of 2020, The COVID-19 pandemic started making impacts and creating uncertainty during unprecedented challenges at the local, state, national, and global levels. The sudden stop of economic activity due to the outbreak of COVID-19 has made the revenue outlook less clear. Economists have had a particularly difficult time forecasting turning points in the business cycle. It became clear overnight that Oregon is in a severe recession, the deepest on record. Recovery will take years.

Job Growth Factor

The information presented in the financial statements is best understood when it is considered from the broader perspective of the specific environment within which the District operates.

According to the Office of Economic Analysis (OEA), as of May 2020 the job loss in Oregon is approximately 370,000, equal to nearly 19% of all jobs in the state. There is projected to be an initial spike to the growth rate once some restrictions are lifted. After that initial rebound, growth will continue but at a slow pace due to the uncertainty.

K-12 Revenue

Although Oregon had an improving economy prior to the pandemic, K-12 funding was far from stable. The 2019-21 Biennium budget from Governor Kate Brown is at \$9.00 billion with a 49/51 split between 2019-20 and 2020-21. For the 2021-23 Biennium the proposed budget from Governor Kate Brown is \$9.1 Billion, which do not meet the needs of the State's K-12 Education System. At this funding level, Reynolds School District will be forced to reduce its operating budget.

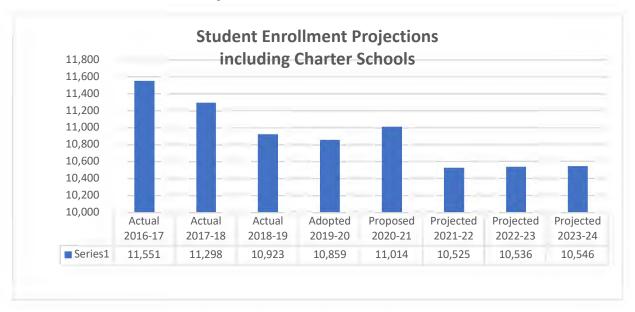

In May 2019, the voters in Oregon voted in favor of House Bill 3427, The Student Success Act. After the impacts of COVID-19, this will bring about three million to Reynolds School District in the 2020-21 school year for the Student Investment Account. This is one-third of our original estimate. For 2021-22, we are estimating that we will get about seventy percent of our original estimate of 10 million.

The Legislature must deal with the long-term funding of the Public Employees Retirement System (PERS). Senate Bill 1049 was passed in the Spring of 2019 and this will provide some changes to the current PERS system. Starting in July 2020, a portion of contributors 6% is redirected to an Employee Pension Stability Account. Even with this change, the outlook on the PERS system is still not positive. This is not a short-term problem. Funding PERS obligations will affect public agencies and schools for at least the next six years.

The District continues to meet the goal of using current year revenues for current year expenses while maintaining 5% ending fund balance per Board Policy. The goal of the District will be to continue the practice of only spending down fund balances on one-time expenditures such as capital and other non-labor costs.

The District's largest source of revenue comes from the State School Fund and is determined using projected student enrollment in the District and projected transportation expenditures.

Enrollment in our schools has been declining in recent years and was projected to have a small increase for 2020-21 prior to the pandemic. Since the pandemic, the District had students transfer out of the district to online schools and there was a smaller incoming Kindergarten class. The following chart displays student population for four years based on actual enrollment as of October each year and the projected enrollment for 2020-21 through 2023-24:

Due to the important relationship between funding and enrollment, the District will continue to carefully review future projections.

LONG-TERM FINANCIAL PLANNING

The District maintains 28 facilities totaling 1.4 million square feet. As is true of many school districts in the State of Oregon, funding for capital improvements is limited due to prioritization of limited District resources for direct support of student learning in the classroom. As a result, our facilities, some over 100 years old, are in dire need of improvements and/or replacement to meet current building codes, as well as expansions to serve our existing student population who experience over-crowding due to shortages of classroom and common spaces.

On May 19, 2015, the Reynolds School District successfully passed their \$125 million general obligation bond thanks to the votes of devoted citizens. A bond premium was realized during the bond sale that increased the project budget by another \$14 million.

A major component of this bond program was to include the construction of three new elementary schools at the existing sites of Fairview Elementary, Troutdale Elementary, and Wilkes Elementary. The bond program also included additions & renovations to be constructed at Reynolds High School. The final element of the Bond Program is the design and construction of secure vestibules in 12 other schools within the District. The district has completed the majority of the projects and is doing the final bond work during the 2020-21 fiscal year.

On September 17, 2015, the Reynolds Citizen Oversight Committee met for the first time. The Committee is made up of board members, community members, district's staff and Project Manager. The Committee meets monthly to monitor and report on the expenditures of the 2015 G.O. Bonds proceeds, and to inform the public on those expenditures. The Committee will promptly inform the Board of any wasteful spending.

For schools that are not part of the 2015 G.O. Bonds proceeds, the District will continue to annually increase capital improvements to sites and facilities to maintain District's assets. During the 2019-20 and 2020-21 fiscal years the district is working on a new Facilities Master Plan.

ACKNOWLEDGMENTS

We wish to express our appreciation to the entire Finance Department staff and members of other District departments who assisted in the preparation of this Comprehensive Annual Financial Report. We also wish to extend our appreciation to the members of the Board of Directors, the administrators, and employees of the District and citizens for their support and dedication to the financial operations of the District.

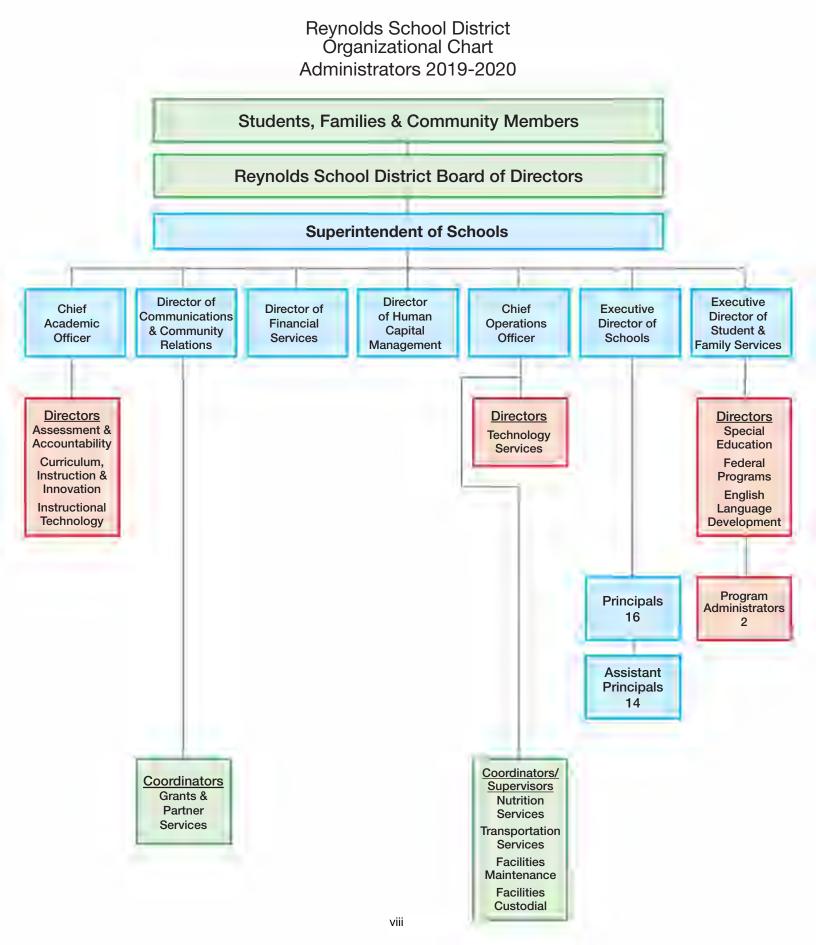

Respectfully submitted,

Dr. Danna Diaz, Superintendent

Christina Weinard, Director of Finance

December 14, 2020

To the Board of Directors Multnomah County School District No. 7 Multnomah County, Oregon

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying basic financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Multnomah County School District No. 7 (the District), as of and for the year ended June 30, 2020, and the related notes to the basic financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these basic financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of basic financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these basic financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the basic financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the basic financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Multnomah County School District No. 7 thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the schedules of changes in Total OPEB liability and Related Ratios for Health Care and Stipends, the schedules of net pension liability and contributions for PERS, and net OPEB asset and contributions for RHIA, or management's discussion and analysis because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance on them.

The budgetary comparison schedules presented as Required Supplementary Information, as listed in the table of contents, have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and in our opinion are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplementary information, as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CRF) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements. The supplementary information, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

The introductory and statistical sections listed in the table of contents, and the other information, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Reports on Legal and Other Regulatory Requirements

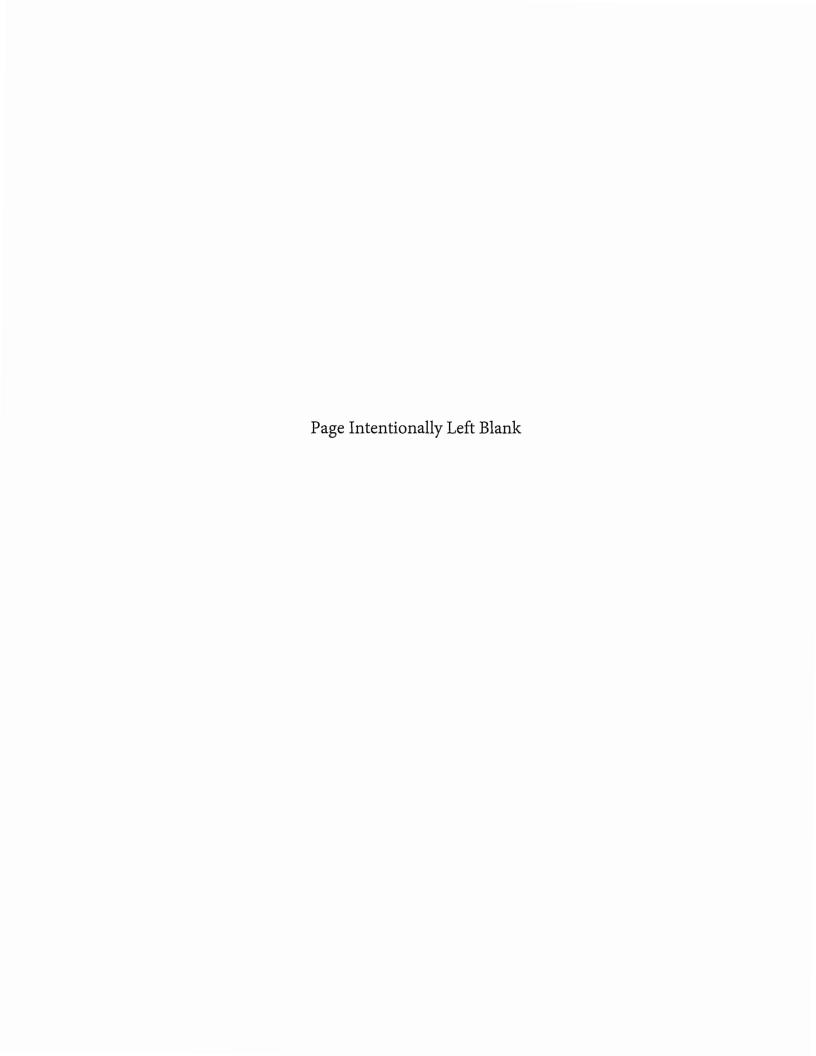

In accordance with Government Auditing Standards, we have also issued our reports dated December 14, 2020 on our consideration of the internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of the reports is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. The reports are an integral part of an audit

performed in accordance with Government Auditing Standards in considering internal control over financial reporting and compliance.

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated December 14, 2020, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

Roy R. Rogers, CPA

PAULY, ROGERS AND CO., P.C.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2020

As management of Reynolds School District # 7 (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ending June 30, 2020.

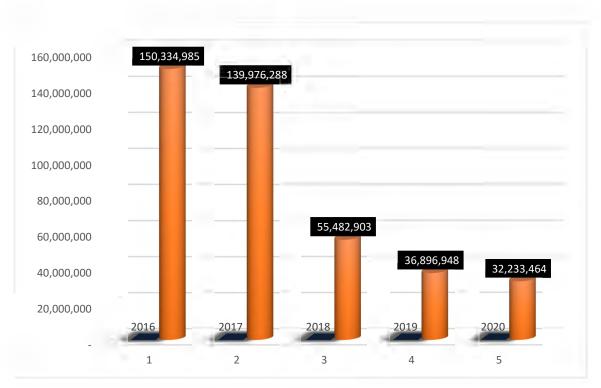

The focus of the Management's Discussion and Analysis (MD&A) is on the current year activities, resulting changes and currently known facts. The MD&A should be read in conjunction with the District's financial statements, including the accompanying notes. Additionally, as a required part of the MD&A, comparative information for the current year is presented for financial analysis to enhance the understanding of the District's financial performance.

NEW ACCOUNTING STANDARDS IMPLEMENTED

During the year, the District did not implement any new accounting standards. GASB delayed any new implementations for the year. There is more information in GASB 95 of the postponement of the effective dates of certain authoritative. The delay is to provide some relief to government during the COVID-19 pandemic.

Financial Highlights

- The government-wide financial statements, the assets and deferred outflows of resources of the District trailed its liabilities and deferred inflows of resources by (\$25.34) million net position.
 This is because the Net Pension Liability, the Net Other Post Employment Benefit Obligation, the Pension Related Deferrals for PERS RHIA, Stipends and Healthcare have increased.
- At June 30, 2020, the District's total net position decreased by \$760,542 in the District's financial position as compared to the prior year. In another words, the gap between Assets and Liabilities in 2018-19 was smaller and the gap has increased in the current year.
- At June 30, 2020, the District's governmental funds reported combined ending fund balances
 of \$32,233,464. This represents a decrease of \$4,663,484 from the prior year, a 12.64%
 decrease of in the District's financial position as compared to the prior year. The District has
 completed its fifth year of a \$125 million capital spending bond approved by the voters in May
 2015.

- At June 30, 2020, the General Fund had a fund balance of \$19,090,770, including a GASB 54 reporting requirement of \$131,981 from Early Retirement Fund.
- GASB 54 requires the Early Retirement Fund's ending fund balance be reported with the General Fund, rather than reporting with Other Government funds as in prior years.

This Management's Discussion and Analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements are designed to provide readers with a broad overview of the District's finances in a manner similar to private-sector businesses.

- The Statement of Net Position presents information on all of the District's assets plus deferred
 outflow and liabilities plus deferred inflows, with the difference between the two reported as net
 position. Over time, increases or decreases in net position may serve as a useful indicator of
 whether the financial position of the District is improving or deteriorating.
- The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes, and earned, but unused, vacation leave).

Both of the government-wide financial statements distinguish functions that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). As is typical for a school district, the Reynolds School District has governmental activities, such as regular and special education programs, child nutrition services, transportation,

administration, and facilities improvements and construction. These activities are primarily financed through property taxes, Oregon's State School Fund, and other intergovernmental revenues. The District does not have any business-type activities.

The government-wide financial statements can be found on pages 5 and 6 of this report.

Fund Financial Statements are designed to demonstrate compliance with finance-related legal requirements overseeing the use of fund accounting. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities and objectives. All of the funds of the District are governmental funds. The School Board sets appropriations within every fund each year (for instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, transfers, contingency, and unappropriated ending fund balance and other GASB 54 classifications) that establish the legal limits for expenditures of the District.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term* inflows and outflows of available resources, as well as balances of available resources at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains nine major governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances. The District classifies these nine funds as major funds.

The District adopts an annual appropriated budget for all of its funds as stated above. A budgetary comparison statement has been provided for each fund individually to demonstrate compliance with their budgets.

The basic governmental fund financial statements can be found beginning on pages 7 to 12 of this report.

Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 13 to 44 of this report.

Required Supplementary Information (RSI), Supplementary Information (SI), & Other information (OI) is included on the basic financial statements and accompanying notes. The State of Oregon requires governmental entities to provide financial information prepared in accordance with Oregon's Budgetary Law (Budgetary Basis). The District also includes additional supplemental information to assist the users of the financial statements in gaining an understanding of the District's financial position. Other information (both required and additional) can be found on pages 45 to 69 of this report.

Additionally, the Federal Government and the State of Oregon require Governmental entities to include additional auditor reports and schedules. The 2019-2020 Auditors' Comments and Disclosure includes the auditor's report on internal accounting control and other matters. The Grant Compliance review includes a schedule of Federal Awards, on pages 91 and 92, along with reports on internal control, program compliance and schedule of prior and current year audit findings relative to Federal awards.

The required auditors' comments, disclosures and grant compliance review information can be found on pages 93 to 98 of this report.

Government-Wide Financial Analysis

Net Position

Net position may serve over time as a useful indicator of a government's financial position. The table below condenses the Statement of Net Position shown in the Basic Financial Statements.

Go	vernm	ental Activities		-
		2020	2019	Increase/Decrease
Assets				
Current and other Assets	\$	43,790,947 \$	54,250,464 \$	(10,459,517)

Restricted for State and Local Programs		485,654	485,653	
Restricted for Food Service		896,806	1,673,766	(776,960)
Unrestricted	A A	(106,484,799)	(98,643,116)	(7,841,683)
Total Net Position	\$	(25,348,351) \$	(24,587,810) \$	(760,542)

Net investment in capital assets. As shown in the table above, the District's current net investment in capital assets is \$72.51 million, an increase of \$8.44 million over the prior year. The increase is the result of capital asset additions from bond capital projects and seismic capital grants. The \$72.51 million net position component includes land, construction in process, building, improvements, vehicles and equipment, net of depreciation where applicable, and net of the related debt that was incurred to acquire those assets. Information about capital assets and their related debt is available in Note 7 – Capital Assets and Note 9 – Long Term Obligations.

Restricted net position decreased by a total of \$1.36 million in 2019-20, primarily due to decreases in Debt Service, Food Service, OPEB-RHIA Assets, a small increase to OPEB-RHIA Assets and not a significant change to State and Local Programs.

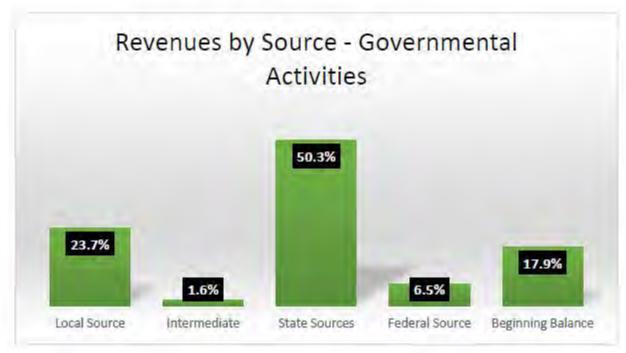

Unrestricted net position has decreased by \$7.84million, from a negative \$98.64 million to negative \$106.48 million. The decrease in unrestricted net position results from the OPEB reporting requirement and further explanation can be found in note 10 – Defined Benefit Pension Plan and Note 11 – Other Post Employment Benefit Plan.

Revenues

Total revenues increased by \$348,790 from the prior year, this a net result of an increase in the State School Fund funding received, Charges for Services, Intermediate Sources and Miscellaneous, offset by a decrease in the Operating Grans and Contributions as well as Property Taxes.

General Fund revenues account for approximately 78.02% of all funds revenues. Property taxes are split between General Fund tax levies, and Debt Service requirements. The State School Fund (SSF) is the largest revenue source at \$100,194,901 or 48.6% of total revenues. Each Oregon school district receives funding from the state based upon an Average Daily Membership (ADMw) formula, weighted for various demographic considerations. The formula is allocated by multiplying a dollar rate per student established by the legislature every biennium. All General Fund Ad Valorem Taxes, County School Fund, State School Support, Common School Fund, and Federal Forest Fees are included in the SSF formula. As a safety net, each district may utilize the highest ADMw from the current or most recent fiscal years in the calculation.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

Governmental Funds

The focus of the District's *governmental funds* is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* and any unused *budgeted contingencies* may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$32,233,464.

General Fund

The General Fund is the primary operating fund of the District. At the end of the current fiscal year, the total ending fund balance was \$19,090,770. This amount represents \$18,958,789 of the General Fund and \$131,981 of the Early Retirement Fund. GASB 54 requires the Early Retirement Fund's ending fund balance be reported with the General Fund, instead of reporting with Other Government Funds as in prior years.

Federal Programs Fund

Revenues and expenditures in the Federal Programs Fund increased from \$8,373,131 in 2018-19 fiscal year to \$8,613,977 in 2019-20 fiscal year due to an increase in Federal Grants.

Special Revenue Funds (Other Governmental Funds)

The Special Revenue Fund consists of Nutrition Services, State and Local Programs and Self Insurance Funds. This fund has decreased in total fund balance from \$6,072,318 in 2018-19 fiscal year to \$2,785,573 in 2019-20 fiscal year, primarily due to a decrease in contracts and revenues.

Debt Service Fund

This fund provides for the payment of principal and interest on long-term general obligation of governmental funds. Revenue source for this fund is property taxes. This fund has decreased in total fund balance from \$3,149,520 in 2018-19 fiscal year to \$1,280,893 in 2019-20 fiscal year, primarily due to decreased revenues.

PERS Bond Fund

This fund provides for the payment of principal and interest of PERS UAL pension obligation bond. The Revenue sources are charged to other funds. This fund has decreased in total fund balance from \$231,988 in 2018-19 fiscal year to \$180,784 in 2019-20 fiscal year, primarily due to increased expenditures and decreased revenues.

2015 GO Bond Debt Service Fund

This fund provides for the payment of principal and interest on long-term general obligation of governmental funds. Revenue source for this fund is property taxes. This Fund supports school building improvements. This fund has increased in total fund balance from \$3,767,948 in 2018-19 fiscal year to \$4,630,197 in 2019-20 fiscal year, primarily due to revenues being greater than expenditures.

2015 GO Bond Projects Fund

This fund manages the capital expenditures for specifically authorized projects funded by the 2015 General Obligation bonds. This fund has decreased in total fund balance from \$4,133,898 in 2018-19 fiscal year to \$2,473,020 in 2019-20 fiscal year, primarily due finishing out the bond projects which is projected to be done 2020-21.

Capital Projects Fund

This fund provides for the payment of principal and interest on the 2010 Full Faith and Credit Refunding Obligation. Revenue source for this fund is excise tax and interest earning. This fund has increased in total fund balance from \$484,863 in 2018-19 fiscal year to \$1,559,383 in 2019-20 fiscal year, primarily due to increased revenues.

2016 School Improvement Project Fund

The School Improvement Projects or Qualified Zone Academy Bond (QZAB) is a tax credit bond program whereby bond investors take a tax credit in lieu of interest payments for qualified bonds under the IRS Tax Code. Project accounted for under the QZAB include roof resurfacing exterior block sealing, HVAC replacement, and major abatement work. This fund has decreased in total fund balance from \$1,055,756 in 2018-19 fiscal year to \$232,844 in 2019-20 fiscal year, primarily due completing the projects.

Capital Asset and Debt Administration

Capital assets

The District's investment in capital assets for its governmental activities as of June 30, 2020 amounts to \$225,521,802 net of accumulated depreciation. This investment in capital assets includes land, buildings, equipment, and vehicles.

Capital Assets (No	et of Depreciation) in	cludes the foll	lowing:
	2020	2019	Increase/Decrease
Land	17,752,046	18,236,549	(484,503)
Construction in Progress		-	-
Buildings and Improvements	203,898,242	202,387,729	1,510,513
Vehicles and Equipment	3,871,514	3,522,772	348,742
11577 P.3.1 CALC 175 [11]	225,521,802	224,147,050	1,374,752

Additional information on the District's capital assets can be found in Note 7 Capital assets on page 23 of this report

Long-term debt. At the end of the fiscal year, the District had a total outstanding long-term debt of \$206,969,064 consisting of general obligation debt and pension obligation debt, net of unamortized premium/discount.

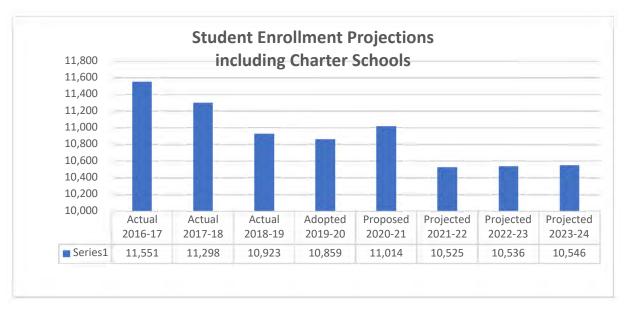

Long-Term Debt for the year ended June 30, 2020

	2020	2019	Increase/Decrease
Bond Payable	187,461,022	193,550,728	(6,089,706)
Notes Payable	19,508,042	20,635,722	(1,127,680)
	206,969,064	214,186,450	(7,217,386)

Additional information on the District's long-term debt can be found in note 9 on pages 24 to 27 of this report

Economic Factors and Next Year's Budgets

- Resources supporting District General Fund operations primarily reflect local and state
 revenues, with additional income from federal, county and other sources. The State School
 Fund formula determines the largest segment of resources. Most funding provided by the State
 to the District is based on the District's average daily membership of students.
- Starting in March of 2020, The COVID-19 pandemic started making impacts and creating
 uncertainty during unprecedented challenges at the local, state, national, and global levels.
 The sudden stop of economic activity due to the outbreak of COVID-19 has made the revenue
 outlook less clear. Economists have had a particularly difficult time forecasting turning points
 in the business cycle. It became clear overnight that Oregon is in a severe recession, the
 deepest on record. Recovery will take years.
- Enrollment in our schools has been declining in recent years, and the projected enrollment for 2020-21 anticipates that there will be a decline in overall enrollment due to the COVID-19 pandemic.

 The Oregon state economy is currently in a severe recession, with the unemployment rate has spiked because of the state closers. There is projected to be an initial spike to the growth rate once some restrictions are lifted. After that initial rebound, growth will continue but at a slow pace due to the uncertainty.

- The costs of salaries and related benefits are expected to increase in 2020-21. The utility costs continue to escalate.
- The District has also analyzed its financial holdings and does not anticipate any liquidity problems in the next 12 months.
- School Board policy mandates that the District budget a minimum of 5% fund balance be
 maintained unless the Board takes formal action to waive or lower the requirement. The
 reserve is maintained to absorb economic downturns, state revenue-sharing reductions and
 other revenue shortfalls, and will prudently be used when needed to provide stability of core
 programs and legally required activities to every child.
- In spite of the uncertainty in today's economy and continued funding challenges, the District, through prudent fiscal management, maintains a healthy financial position to provide the quality education deserved by every child.

The District's Budget Committee and School Board considered all of these factors while preparing the District's budget for the 2020-21 fiscal year.

Requests for Information

This financial report is designed to present the user (citizens, taxpayers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be address to the Director of Finance Service at 1204 NE 201st Ave, Fairview OR 97024. Electronic copies of this report may be found at the district website:

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities For the year ended June 30, 2020

For the year ended June 30, 2020		
TOTAL NET CHANGES IN FUND BALANCES-GOVERNMENTAL FUNDS	\$	(4,663,484)
Governmental funds report capital outlay as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period:		
Expenditures for capital assets Less current year depreciation	\$ 8,150,498 (5,835,284)	2,315,214
The amount by which cost of assets disposed exceeded accumulated depreciation in the current period		
Proceeds from Sale of Capital Assets Loss on Disposal of Capital Assets	(500,000) (440,462)	(940,462)
Long-term debt proceeds are reported as other financing sources in governmental funds. In the Statement of Net Position, however, issuing long-term debt increases liabilities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability government-wide.		
Proceeds from Bond Issuance Principal Payments on Bond Payables Principal Payments on Note Payables	(2,054,952) 7,532,822 1,065,715	6,543,585
Governmental funds report the effect of premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.		
Amortization of bond premiums Amortization of note premiums Accretion of discount on pension obligation bonds	750,525 61,965 (138,689)	673,801
Net Pension Expense - Stipends		(45,352)
Net OPEB Expense - Health Care		(725,471)
Net OPEB Expense - RHIA		446,654
In the Statement of Activities interest is accrued on long-term debt, whereas in the governmental funds it is recorded as an expense when due.		(51,549)
Property taxes that do not meet the measurable and available criteria are not recognized as revenue in the current year in the governmental funds. In the Statement of Activities property taxes are recognized as revenue when levied.		(57,854)
Changes in equity in the Center for Advanced Learning (CAL) is not reported in the governmental funds:		(37,989)
The PERS Pension Expense represents the changes in Net Pension Asset (Liability) from year to year due to Changes in total pension liability and the fair value of pension plan net position available to pay pension benefits.		(4,149,091)
Compensated absences are recognized as expenditure in the governmental funds when they are paid. In the Statement of Activities these liabilities are recognized as an expenditure when earned.	_	(68,544)
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	\$	(760,542)

The notes to the basic financial statements are an integral part of this statement

NOTES TO THE BASIC FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. THE FINANCIAL REPORTING ENTITY

Multnomah County School District No. 7 (the District) is a municipal corporation governed by an elected Board of Directors. The Superintendent is approved by the Board. The daily functioning of the District is under the supervision of the Superintendent. As required by generally accepted accounting principles in the United States of America, all activities of the District have been included in these basic financial statements. The District does not have any business type activities.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. There are various governmental agencies and special service districts, which provide services within the District's boundaries. However, the District is not financially accountable for any of these entities, and therefore, none of them are considered component units, as defined by GASB Statement 61, or included in these basic financial statements.

The basic financial statements have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the governing body and establishes governmental accounting and financial reporting principles. The more significant accounting policies are described below.

B. GOVERNMENT-WIDE FINANCIAL STATEMENTS (GWFS)

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) display information about the District as a whole. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. All direct expenses are reported by function in the Statement of Activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. The District has a negotiated indirect cost rate with Oregon Department of Education that is applied to grant funds as allowable by the grant, no other de minimus rate is applied. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements. The accounts are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. Net position is reported as restricted when constraints placed on net position use are either externally restricted, imposed by creditors, or through constitutional provisions or enabling resolutions.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, revenues are considered to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, pension costs, and OPEB obligations are recorded only when payment is due.

Property taxes associated with the current fiscal period, are considered by management to be susceptible to accrual, if received in cash or a County collecting such taxes within 60 days after year-end. All other revenue items are recognized in the accounting period when they become both measurable and available. All other revenue items are considered to be measurable and available only when cash is received.

The following major governmental funds are reported:

GENERAL FUND

This fund accounts for all financial resources and expenditures, except those required to be accounted for in another fund. The principal revenue sources are property taxes and an apportionment from the State of Oregon School Support Fund.

FEDERAL PROGRAMS FUND

This fund accounts for expenditures of federal grant funds. The principal revenue source is federal grant monies.

DEBT SERVICE FUND

This fund accounts for the payment of principal and interest general obligation bonds. The principal revenue source is property taxes.

PERS BOND FUND

This fund accounts for the payment of principal and interest on pension bonds. The principal revenue source is Services Charged to Other Funds.

2015 GO BOND DEBT SERVICE FUND

This fund accounts for the payment of principal and interest for the two general obligation bonds the District received in 2015 and are to be used to finance several specific capital projects as dictated by the bonds' ballot measure. The principal revenue source is the proceeds from the bond and associated interest.

2015 GO BOND PROJECTS FUND

This fund accounts for major capital outlay expenditures relating to the acquisition, construction and remodeling of facilities as authorized in the 2015 general obligation bonds' ballot measure. Principal financing sources include the proceeds from the issuance of debt and earnings from investments which are accounted for in the 2015 Go Bond Debt Service fund.

CAPITAL PROJECTS FUND

This fund accounts for major capital outlay expenditures relating to the acquisition, construction and remodeling of facilities. Principal financing sources include the proceeds from the issuance of debt, sales of property and earnings from investments.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

2016 SCHOOL IMPROVEMENT PROJECTS FUND

This fund accounts for major capital outlay expenditures relating to the acquisition, construction and rehabilitation of Qualified Zone Academy Bond eligible facilities. Principal financing sources include the proceeds from the issuance of debt.

Three non-major funds are reported as a combined total on the fund financial statements. These funds are not considered major because of the level of activity within them.

FUND BALANCE

GASB Statement No. 54, Fund Balance Reporting and Governmental Fund-type Definitions is followed. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the five classifications are nonspendable, restricted, committed, assigned, and unassigned.

- <u>Nonspendable fund balance</u> represents amounts that are not in a spendable form. The nonspendable fund balance represents inventories and prepaids.
- Restricted fund balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).
- <u>Committed fund balance</u> represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.
- Assigned fund balance represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official to whom that authority has been given by the governing body. Authority to classify portions of ending fund balance as assigned is granted to the Clerk and the Deputy Clerk.
- <u>Unassigned fund balance</u> is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

The Board of Directors therefore adopted Policy DBDB whereby the Superintendent or designee is directed to manage the adopted budget in such a way as to ensure an ending fund balance of at least 5 percent of total adopted revenues.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Special Revenue Fund Rolled into the General Fund for GASB 54 Purposes

Financial statements must report as Special Revenue funds only those which have a substantial portion of revenue inflows from restricted or committed revenue sources. The Retirement Fund is combined into the General Fund because there are no restricted or committed revenues.

NET POSITION

Net position comprises the various net earnings from operations, non-operating revenues, expenses and contributions of capital. Net position is classified in the following three categories:

- Net Investment in Capital Assets consists of all capital assets reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted consists of external constraints placed on asset use by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. There is net position restricted for grants, debt service, and the OPEB RHIA asset.
- Unrestricted consists of all other assets that are not included in the other categories previously mentioned.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

As a general rule the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects of interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their external exchange value.

DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the basic financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. At June 30, 2020 there were deferred outflows representing PERS pension related deferrals, OPEB related deferrals for stipends, OPEB related deferrals for health care and OPEB related deferrals reported for RHIA reported in the statement of net position.

In addition to liabilities, the basic financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. At June 30, 2020, there were deferred inflows representing PERS pension related deferrals, OPEB related deferrals for stipends, OPEB related deferrals for health care, and OPEB related deferrals for RHIA reported in the statement of net position. The governmental funds balance sheet reports unavailable revenues from two sources – property taxes and grants. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

D. ASSETS, LIABILITIES, AND NET POSITION OR EQUITY

CASH AND INVESTMENTS

For the purpose of the Statement of Net Position and the balance sheet, money in the Oregon State Local Government Investment Pool, savings deposits and demand deposits are considered to be cash and cash equivalents. Investments with a remaining maturity of more than one year at the time of purchase are stated at fair value.

OTHER POST-EMPLOYMENT BENEFITS (HEALTH CARE)

Eligible employees who elect supplemental retirement may be entitled to payment of group medical insurance premiums. The costs of these premiums are recorded as expenditures as due and funded on a current basis.

PROPERTY TAXES

Uncollected real and personal property taxes are reflected on the Statement of Net Position and the balance sheet as receivables. Uncollected taxes are deemed by management to be substantially collectible or recoverable through liens; therefore no allowance for uncollectible taxes has been established. All property taxes receivable are due from property owners within the District. Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic distributions of collections to entities levying taxes. Property taxes become a lien against the property when levied on July 1 of each year and are payable in three installments due on November 15, February 15 and May 15. Property tax collections are distributed monthly except for November, when such distributions are made weekly.

SUPPLY INVENTORIES AND PREPAID ITEMS

District operating supplies, maintenance supplies, and food and other cafeteria supplies are stated at average invoice cost. Commodities purchased from the United States Department of Agriculture in the Food Service Fund are included in inventories at USDA wholesale value. Inventory is accounted for on the consumption method in the government wide statements. Under the consumption method, inventory is expensed when used. In the fund financial statements, inventories are expensed when purchased. Donated commodities consumed during the year are reported as revenues and expenditures. The amount of unused donated commodities at balance sheet date is considered immaterial by management for reporting purposes. Prepaid assets are recognized as expenditures when their use benefits the District.

ACCOUNTS AND OTHER RECEIVABLES

Accounts and other receivables are comprised primarily of claims for reimbursement of costs under various federal, state and local grants. Amounts due from Federal agencies are considered by management to be fully collectible. An allowance for uncollectible accounts receivable from the public is established when management determines that collection is unlikely to occur. At June 30, 2020 management considers all accounts, including those from the public fully collectible.

PREPAID ITEMS

Prepaid Items are recognized as expenditures in governmental funds proportionately over the periods that service is provided, which follows the Consumption Method.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

GRANT ACCOUNTING

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Cash received from grantor agencies in excess of related grant expenditures are recorded as unearned revenue on the statement of net position and the balance sheet.

COMPENSATED ABSENCES

It is the policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since there is no policy to pay any amounts when an employee separates from service with the District. All vacation pay is accrued when incurred in the government-wide financial statements and expensed when used in the fund financial statements.

CAPITAL ASSETS

Capital assets are recorded at original cost or estimated original cost. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are recorded at their acquisition value on the date donated. Capital assets are defined as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Interest incurred during construction is not capitalized. The cost of routine maintenance and repairs that do not add to the value of the assets or materially extend asset lives are charged to expenditures as incurred and not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements 10 to 50 years Vehicles and Equipment 5 to 30 years

LONG TERM OBLIGATIONS

In the government-wide financial statements long-term debt is reported as a liability in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the bonds outstanding method. Bonds payable are reported net of the applicable bond premium.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuance are reported as other financing uses.

RETIREMENT PLANS

Substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (PERS). For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about fiduciary net position of PERS and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

USE OF ESTIMATES

The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

E. FAIR VALUE INPUTS AND METHODOLOGIES AND HIERARCHY

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Observable inputs are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are developed based on the best information available about the assumptions market participants would use in pricing the asset. The classification of securities within the fair value hierarchy is based upon the activity level in the market for the security type and the inputs used to determine their fair value, as follows:

<u>Level 1</u> – unadjusted price quotations in active markets/exchanges for identical assets or liabilities that each Fund has the ability to access

<u>Level 2</u> – other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, loss severities, credit risks and default rates) or other market–corroborated inputs)

<u>Level 3</u> – unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including each Fund's own assumptions used in determining the fair value of investments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

A budget is prepared and legally adopted for all funds on the modified accrual basis of accounting in the main program categories required by Oregon Local Budget Law.

NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - CONTINUED

BUDGETARY INFORMATION - CONTINUED

The budget process begins early in each fiscal year with the establishment of the budget committee. In the fall, public input is invited as the Board decides the budget priorities for the next year. Recommendations are developed through late winter with the budget committee approving the budget in the spring. Public notices of the budget hearing are published generally in the spring with a public hearing being held approximately three weeks later. The Board may amend the budget prior to adoption; however, budgeted expenditures for each fund may not be increased by more than ten percent. The budget is then adopted, appropriations are made and the tax levy declared no later than June 30th.

Expenditures are appropriated at the following levels for each fund: Instruction, Support Services, Enterprise and Community Services, Facilities Acquisition and Construction, Interfund Transactions, Debt Service, and Operating Contingency.

Expenditures cannot legally exceed the above appropriation levels except in the case of grants, which could not be estimated at the time of budget adoption. Appropriations lapse at the fiscal year end. Management may amend line items in the budget without Board approval as long as appropriation levels (the legal level of control) are not changed. Supplemental appropriations may occur if the Board approves them due to a need that exists which was not determined at the time the budget was adopted. There was one supplemental appropriation during the year. Budget amounts shown in the budgetary financial statements reflect the original and final amended budget. Expenditures of the various funds were within authorized appropriations.

NOTE 3. BUDGETARY BASIS OF ACCOUNTING

While the financial position, results of operations, and changes in fund balance/net position are reported on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis of accounting differs from generally accepted accounting principles. The budgetary statements provided as part of supplementary information elsewhere in this report are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The primary differences between the budgetary basis and GAAP basis are that capital outlay is expensed when purchased, depreciation expense is not recorded, and the full accrual of property taxes, which are not reported as revenue in the governmental funds unless received within 60-days of year end. Inventories of supplies are budgeted as expenditures when purchased, and debt, accrued vacation, pension costs, and OPEB liabilities are expensed as paid instead of when incurred.

NOTE 4. JOINT VENTURE

The District has entered into an intergovernmental property agreement to build and operate a Center for Advanced Learning (CAL), a charter school. However, payment and ownership is shared with the following Districts along with their share of ownership: Reynolds School District No. 7, 19.305%; Centennial School District No. 28J, 16.369%; Mt. Hood Community College, 15.058%; and Gresham-Barlow School District No. 10J, 49.268%. The District's equity in CAL at June 30, 2020 was \$1,169,336.

The Center for Advanced Learning issues a publicly available financial report which may be obtained by writing: Administrator, The Center for Advanced Learning, 1484 NW Civic Drive, Gresham, OR 97030.

NOTE 5. CASH AND INVESTMENTS

DEPOSITS

Deposits with financial institutions are comprised of bank demand deposits and certificates of deposit. Oregon Revised Statues require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury. The total bank balance per the bank statements as of June 30, 2020 was \$2,969,347, of which \$250,000 was insured by FDIC with the remaining amount collateralized by the Oregon Public Funds Collateralization Program (PFCP).

Credit Risk - Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the deposits may not be returned. There is no deposit policy for custodial credit risk. As of June 30, 2020, none of the bank balances were exposed to custodial credit risk.

INVESTMENTS

The types of investments that may be invested in are restricted by State of Oregon Revised Statues. Authorized investments include general obligations of the United States government and its agencies, obligations of the States of Oregon, California, Idaho and Washington that have a rating of AA or better, A-1 rated commercial paper and banker's acceptances, corporate bonds rated AA or better, time deposits, repurchase agreements and the Oregon State Treasurer's Local Government Investment Pool.

Investments in the Local Government Investment Pool (LGIP) are included in the Oregon Short-Term Fund, which is an external investment pool that is not a 2a-7-like external investment pool, and is not registered with the U.S. Securities and Exchange Commission as an investment company. Fair value of the LGIP is calculated at the same value as the number of pool shares owned. The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held. Investments in the Short-Term Fund are governed by ORS 294.135, Oregon Investment Council, and portfolio guidelines issued by the Oregon Short-Term Fund Board, which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund's compliance with all portfolio guidelines can be found in their annual report when issued. The LGIP seeks to exchange shares at \$1.00 per share; an investment in the LGIP is neither insured nor guaranteed by the FDIC or any other government agency. Although the LGIP seeks to maintain the value of share investments at \$1.00 per share, it is possible to lose money by investing in the pool. We intend to measure these investments at book value since it approximates fair value. The pool is comprised of a variety of investments. These investments are characterized as a level 2 fair value measurement in the Oregon Short Term Fund's audited financial report. Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized. The audited financial reports of the Oregon Short Term Fund can be found here:

http://www.oregon.gov/treasury/Divisions/Investment/Pages/Oregon-Short-Term-Fund-(OSTF).aspx

If the link has expired please contact the Oregon Short Term Fund directly.

The Board has established investment policies to approve only certain depositories and investment instruments and has limited investments to those with maturities of no more than 36 months. The District holds investments in Municipal Bonds, US Agency Securities and US Treasuries through an investment account with a depository approved by the Board. The fair value of these securities is determined based on a level 1 classification due to their availability on open markets. At June 30, 2020, the District appeared to be in compliance with all policies regarding depositories, instruments and maturities.

NOTE 5. CASH AND INVESTMENTS - CONTINUED

Interest Rate Risk - Investments

Oregon Revised Statutes require investments to not exceed a maturity of 18 months from the date of anticipated use of the funds, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB. There are no investments that have a maturity date beyond 36 months, within the time frame of the anticipated use of funds.

Credit Risk - Investments

Oregon Revised Statutes do not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE. The State Investment Pool is not rated. Municipal bond investments held by the District are rated AA+/AAA.

Concentration of Credit Risk

At June 30, 2020, 84% of total investments were in the State Treasurer's Investment Pool, and 16% in treasury obligations and US government agency securities. State statues do not limit the percentage of investments in these instruments.

Cash and Investments at June 30, 2020 (recorded at fair value) consisted of:

Cash and Investments	 2020
Deposits with financial institutions	\$ 1,360,404
Oregon Local Government Investment Pool	26,072,250
Other Investments	5,009,900
Total Cash and Investments	\$ 32,442,554

There were the following investments and maturities:

			Investment Maturities (in months)							
Investment Type		Fair Value	Less than 3		3-18	18-59				
Oregon local government investment pool (LGIP)	\$	26,072,250	\$ 26,072,250	\$	-	\$	-			
US Agency Securities		5,009,900	5,009,900				-			
Total	_\$	31,082,150	\$31,082,150	\$	-	\$				

NOTE 6. ARTS TAX

In November 2012, voters in the District of Portland passed Ballot Measure 26-146 to restore school arts and music education, funded through an income tax of \$35 per person per year. In December of 2012, the District entered into an intergovernmental agreement with the District of Portland to receive a portion of this tax, to be used to provide arts and music education, through certified arts and music teachers, to all K-5 students. Revenues and expenditures for the year ended June 30, 2020 are as follows:

	A	arts Tax	Arts Tax		Music FTE	Art FTE	Total
	R	evenues	Ex	penditures	Funded	Funded	FTE
Alder Elementary	\$	78,580	\$	69,818	1.34	0.25	1.59
Glenfair Elementary		119,091		105,812	0.67	0.25	0.92
Margaret Scott Elementary		84,961		75,488	0.67	0.25	0.92
Wilkes Elementary		102,320		90,911	0.67	0.25	0.92
	\$	384,952	\$	342,029	3.35	1	4.35

NOTE 7. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2020 occurred as follows:

Capital asset assisting for the year entire of	Balance July 1, 2019	Additions	Deletions	Balance June 30, 2020
Governmental Activities:				
Capital Assets Not Being Depreciated:				
Construction in Process	\$ -	\$ -	\$ -	\$ -

The internal balances are recorded to show legal and operational commitments between funds.

NOTE 9. LONG-TERM OBLIGATIONS

BONDS PAYABLE

General Obligation Bonds

In August 2015, \$122,945,047 of general obligation bonds were issued to fund the replacement of three elementary school buildings, construction and renovation at Reynolds High School and various renovation, construction and equipment improvements to all schools. Principal and interest payments are made semiannually on June 15 and December 15 with interest rates ranging from 2% to 5%.

Pension Obligation Bonds

In April 2003, \$80,978,772 of limited tax pension obligation bonds were issued to finance the unfunded actuarially accrued liability (UAL) with the State of Oregon Public Employees Retirement System (PERS). The issuance of the bonds was considered an advance refunding of the UAL and resulted in an estimated present value savings of approximately \$20 million over the life of the bonds. The actual savings realized over the life of the bonds is uncertain because of the various legislative changes and legal issues pending with the PERS system which could impact the future required contribution rate.

NOTE 9. LONG-TERM OBLIGATIONS CONTINUED

Advance Refunding Bonds

On March 1, 2005, \$32,500,000 in Series 2005 General Obligation Refunding Bonds were issued to provide resources to purchase U.S. Government State and Local Government Series securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt services payments of general obligation bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the governmental activities column of the statement of net position. This advance refunding was undertaken to reduce total debt service payments by \$2,015,234 and resulted in an economic gain of \$1,542,768.

Qualified Zone Academy Bonds Series 2016

\$4,000,000 of Qualified Zone Academy bonds were issued on August 4, 2016. \$3,920,000 in proceeds were received after paying issuance costs, and annual payments totaling \$200,000 will be made through July 1, 2030.

General Obligation Bond, Series 2020

On June 11, 2020, \$2,054,952 in Series 2020 General Obligation Bonds were issued to provide resources to finance capital costs on a project including: furnishing, renovating and equipping classroom facilities, and other site improvements. Principal and interest payments are made semiannually on June 15 and December 15 with an interest rate of 2.07%.

Changes in bonds outstanding are as follows:

Issue Date	Interest Rates	Original Issue	Ou 	tstanding June 30, 2019		Issued	Matured and Redeemed	Outstanding June 30, 2020
Bonds Payable								
March I, 2005	3.0-5.0	\$ 32,500,000	\$	4,985,000	\$	-	\$4,985,000	\$ -

	\$ 176,497,058	\$ 98,574,375	\$	275,071,433

NOTES PAYABLE

Full Faith & Credit Obligations (Bond Anticipation) Notes Payable - Series 2010 - Refunding

In June 2010, \$23,850,000 in Full Faith and Credit Obligations were issued. \$25,399,121, which includes the premium of \$1,549,121, was deposited into escrow. From the amount deposited, \$18,757,731 was used to purchase United States Treasury Securities and the remaining \$6,509,408 was held uninvested as cash. The amount in escrow was sufficient to retire the following securities: Series 2006 Full Faith and Credit Obligations, Series 2007 Full Faith and Credit Obligations, 2003 Financing Agreement Note and 2007 Financing Agreement Note. Principal payments are due annually on June 1, through 2035 with interest rates of ranging from 2-5%. The refunding resulted in an economic gain of \$1,542,768, but increased total debt service payments by \$245,157. All four refunded securities were considered defeased on June 3, 2010, the issuance date of the refunding bonds.

2018 Financing Agreement Notes Payable

In June 2018 the District entered a \$2,000,000 financing agreement with US Bank National Association to finance capital costs for furnishing, equipping and performing site improvements for the District's transportation facility. The note is to be paid biannually with the principal of \$285,714 and the first installment of interest due in July and the remainder paid in January, totaling \$2,201,528 with the first payment made in January 2019. The last payment will be made in July 2024.

Changes in Full Faith & Credit obligations (BAN) notes payable are as follows:

			Outstanding			Matured and	Outstanding
Name	Interest Rates	Original Issue	June 30, 2019	Issued		Redeemed	June 30, 2020
Full Faith and Credit							
Obligation	2-5%	\$23,850,000	\$ 17,930,000	\$	-	\$ 780,000	\$ 17,150,000
Financing Agreement	2.5%	2,000,000	1,714,286			285,715	1,428,571
	Sub-Total		19,644,286		-	1,065,715	18,578,571
	Premium		991,436			61,965	929,471
	Total		\$ 20,635,722	\$		\$1,127,680	\$ 19,508,042

NOTE 9. LONG-TERM OBLIGATIONS - CONTINUED

Following are the annual requirements to amortize all notes payable outstanding at year end:

Fiscal Year			Total
Ending June 30,	Principal	Interest	Requirements
2020-21	\$ 1,095,714	\$ 867,4	\$ 1,963,162
2021-22	1,185,715	826,3	2,012,083
2022-23	1,165,714	781,6	1,947,402
2023-24	1,210,714	730,3	1,941,034
2024-25	1,245,714	683,9	1,929,617
2025-30	5,570,000	2,636,3	8,210,653
2030-35	7,105,000	1,100,7	750 8,205,750
	\$18,578,571	\$ 7,626,7	\$ 26,209,701

Total long-term liability activity for the year ended June 30, 2020 was as follows:

C	Beginning Balance	Adjustments	Additions	Reductions	Ending Balance	Due Within One Year
Bonds Payble	\$ 181,974,928	\$ -	\$ 2,054,952	\$ 7,532,822	\$ 176,497,058	\$ 8,848,918

Premium	991,436			61,965	929,471	61,965
Total	20,635,722	-	<u>-</u>	1,127,680	19,508,042	1,157,679
Total long-term debt	\$ 214,186,450	\$ -	\$ 2,054,952	\$ 9,272,338	\$ 206,969,064	\$10,579,159

The District has no significant default or termination clauses on any bonds or notes payable and are not subject to any acceleration clauses under GASB 88.

NOTE 10. DEFINED BENEFIT PENSION PLAN

<u>Plan Description</u> – The Oregon Public Employees Retirement System (PERS) consists of a single cost-sharing multiple-employer defined benefit plan. All benefits of the system are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Oregon PERS produces an independently audited Comprehensive Annual Financial Report which can be found at:

https://www.oregon.gov/pers/Documents/Financials/CAFR/2019-CAFR.pdf

If the link is expired please contact Oregon PERS for this information.

- a. **PERS Pension (Chapter 238)**. The ORS Chapter 238 Defined Benefit Plan is closed to new members hired on or after August 29, 2003.
 - i. Pension Benefits. The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, and 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefits results.

NOTE 10. DEFINED BENEFIT PENSION PLAN - CONTINUED

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for police and fire members). General service employees may retire after reaching age 55. Police and fire members are eligible after reaching age 50. Tier 1 general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Police and fire member benefits are reduced if retirement occurs prior to age 55 with fewer than 25 years of service. Tier 2 members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

- ii. **Death Benefits**. Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following contributions are met:
 - member was employed by PERS employer at the time of death,
 - member died within 120 days after termination of PERS covered employment,
 - member died as a result of injury sustained while employed in a PERS-covered job, or
 - member was on an official leave of absence from a PERS-covered job at the time of death
- iii. Disability Benefits. A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.
- iv. Benefit Changes After Retirement. Members may choose to continue participation in their variable account after retiring and may experience annual benefit fluctuations due to changes in the fair value of the underlying global equity investments of that account. Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes (COLA). The COLA is capped at 2.0 percent.
- b. OPSRP Pension Program (OPSRP DB). The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.
 - i. **Pension Benefits**. This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

Police and fire: 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.

General service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

NOTE 10. DEFINED BENEFIT PENSION PLAN - CONTINUED

- ii. Death Benefits. Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member. The surviving spouse may elect to delay payment of the death benefit, but payment must commence no later than December 31 of the calendar year in which the member would have reached 70½ years.
- iii. **Disability Benefits**. A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

Contributions — PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. The funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2017 actuarial valuation, which became effective July 1, 2019. The state of Oregon and certain schools, community colleges, and political subdivision have made unfunded actuarial liability payments and their rates have been reduced. Employer contributions for the year ended June 30, 2020 were \$16,393,674, excluding amounts to fund employer specific liabilities. In addition, approximately \$12,715 in employee contributions were paid or picked up by the District in 2019-2020.

Pension Asset or Liability – At June 30, 2020, the District reported a net pension liability of \$87,585,114 for its proportionate share of the net pension liability. The pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation dated December 31, 2017. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. As of the measurement dates of June 30, 2019 and 2018, the District's proportion was .51 percent and .61 percent, respectively. Pension expense for the year ended June 30, 2020 was \$4,149,091.

The rates in effect for the year ended June 30, 2020 were:

- (1) Tier 1/Tier 2 15.44%
- (2) OPSRP general services 9.99%

		ferred Outflow		ferred Inflow

and proportionate share of contributions		5,416,624		4,246,491_	
Subtotal - Amortized Deferrals (below)		26,502,911		18,047,122	
District contributions subsequent to measurement date		16,393,674		<u> </u>	
Deferred outflow (inflow) of resources	\$	42,896,585	\$	18,047,122	

NOTE 10. DEFINED BENEFIT PENSION PLAN - CONTINUED

The amount of contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the fiscal year ended June 30, 2021.

Subtotal amounts related to pension as deferred outflows of resources, \$26,502,911, and deferred inflows of resources, (\$18,047,122), net to \$8,455,789 and will be recognized in pension expense as follows:

Year ending June 30,	 Amount
2021	\$ 7,434,150
2022	(495,516)
2023	656,574
2024	901,615
2025	(41,034)
Thereafter	 _
Total	\$ 8,455,789

All assumptions, methods and plan provisions used in these calculations are described in the Oregon PERS system-wide GASB 68 reporting summary dated March 4, 2020. Oregon PERS produces an independently audited CAFR which can be found at:

https://www.oregon.gov/pers/Documents/Financials/CAFR/2019-CAFR.pdf

<u>Actuarial Valuations</u> – The employer contribution rates effective July 1, 2019 through June 30, 2021, were set using the entry age normal actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (estimated amount necessary to finance benefits earned by employees during the current service year), (2) an amount for the amortization unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component, and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

NOTE 10. DEFINED BENEFIT PENSION PLAN - CONTINUED

Actuarial Methods and Assumptions:

Valuation date	December 31, 2017 rolled forward to June 30, 2019
Experience Study Report	2016, Published July 26, 2017
Actuarial cost method	Entry Age Normal
Amortization method	Amortized as a level percentage of payroll as layered amortization bases over a closed period; Tier One/Tier Two UAL is amortized over 20 years and OPSRP pension UAL is amortized over 16 years
Asset valuation method	Market value of assets
Inflation rate	2.50 percent
Investment rate of return	7.20 percent
Discount rate	7.20 percent
Projected salary increase	3.50 percent
Cost of Living Adjustment	Blend of 2% COLA and graded COLA (1.25%/0.15%) in accordance with <i>Moro</i> decision, blend based on service
	Healthy retirees and beneficiaries:
Mortality	RP-2014 Health annuitant, sex-distinct, generational with Unisex, Social Security Data Scale, with collar adjustments and set-backs as described in the valuation. Active members: RP-2014 Employees, sex-distinct, generational with Unisex, Social Security Data Scale, with collar adjustments and set-backs as described in the valuation. Disabled retirees: RP-2014 Disabled retirees, sex-distinct, generational with Unisex, Social Security Data Scale.

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2016 Experience Study which is reviewed for the four-year period ending December 31, 2016.

Assumed Asset Allocation:

Asset Class/Strategy	Low Range	High Range	OIC Target

NOTE 10. DEFINED BENEFIT PENSION PLAN - CONTINUED

Long-Term Expected Rate of Return - To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2017 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

	Target	Compound Annual
Asset Class	Allocation	(Geometric) Return
Core Fixed Income	8.00%	3.49%
Short-Term Bonds	8.00%	3.38%
Bank/Leveraged Loans	3.00%	5.09%
High Yield Bonds	1.00%	6.45%
Large/Mid Cap US Equities	15.75%	6.30%
Small Cap US Equities	1.31%	6.69%
Micro Cap US Equities	1.31%	6.80%
Developed Foreign Equities	13.13%	6.71%
Emerging Market Equities	4.13%	7.45%
Non-US Small Cap Equities	1.88%	7.01%
Private Equity	17.50%	7.82%
Real Estate (Property)	10.00%	5.51%
Real Estate (REITS)	2.50%	6.37%
Hedge Fund of Funds - Diversified	2.50%	4.09%
Hedge Fund - Event-driven	0.63%	5.86%
Timber	1.88%	5.62%
Farmland	1.88%	6.15%
Infrastructure	3.75%	6.60%
Commodities	1.88%	3.84%
Assumed Inflation - Mean		2.50%

(Source: June 30, 2019 PERS CAFR; p. 74)

Discount Rate – The discount rate used to measure the total pension liability as of the measurement dates of June 30, 2019 and 2018 was 7.20 percent for both years, for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from the plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate.

NOTE 10. DEFINED BENEFIT PENSION PLAN - CONTINUED

	1% Decrease	Discount Rate	1% Increase
	(6.20%)	(7.20%)	(8.20%)
District's proportionate share of			
the net pension liability	\$140,259,789	\$87,585,114	\$43,503,668

Changes Subsequent to the Measurement Date

As described above, GASB 67 and GASB 68 require the Total Pension Liability to be determined based on the benefit terms in effect at the Measurement Date. Any changes to benefit terms that occurs after that date are reflected in amounts reported for the subsequent Measurement Date. However, Paragraph 80f of GASB 68 requires employers to briefly describe any changes between the Measurement Date and the employer's reporting date that are expected to have a significant effect on the employer's share of the collective Net Pension Liability, along with an estimate of the resulting change, if available.

There are no changes subsequent to the June 30, 2019 Measurement Date that meet this requirement and thus would require a brief description under the GASB standard.

OPSRP Individual Account Program (OPSRP IAP)

Plan Description:

Employees of the District are provided with pensions through OPERS. All the benefits of OPERS are established by the Oregon legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003. Chapter 238A created the Oregon Public Service Retirement Plan (OPSRP), which consists of the Defined Benefit Pension Program and the Individual Account Program (IAP). Membership includes public employees hired on or after August 29, 2003. PERS members retain their existing defined benefit plan accounts, but member contributions are deposited into the member's IAP account. OPSRP is part of OPERS, and is administered by the OPERS Board.

Pension Benefits:

Participants in OPERS defined benefit pension plans also participate in their defined contribution plan. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies. Upon retirement, a member of the OPSRP IAP may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15-, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

Death Benefits:

Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

Contributions:

Employees of the District pay six (6) percent of their covered payroll. The District did not make any optional contributions to member IAP accounts for the year ended June 30, 2020.

NOTE 10. DEFINED BENEFIT PENSION PLAN - CONTINUED

Additional disclosures related to Oregon PERS not applicable to specific employers are available online, or by contacting PERS at the following address: PO Box 23700 Tigard, OR 97281-3700.

http://www.oregon.gov/pers/EMP/Pages/GASB.aspx

NOTE 11. OTHER POST-EMPLOYMENT BENEFIT PLAN - (RHIA)

Plan Description: As a member of Oregon Public Employees Retirement System (OPERS) the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, PO Box 23700, Tigard, OR 97281-3700.

Funding Policy: Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in an OPERS-sponsored health plan. A surviving spouse or dependent of a deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from OPERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating employers are contractually required to contribute to RHIA at a rate assessed each year by OPERS, and the District currently contributes 0.06% of annual covered OPERF payroll and 0.00% of OPSRP payroll under a contractual requirement in effect until June 30, 2021. The OPERS Board of Trustees sets the employer contribution rates based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The District's contributions subsequent to measurement date for RHIA are included in the PERS contributions (see Note 10) for all reporting years, and equaled the required contributions each year.

At June 30, 2020, the District reported a net OPEB liability/(asset) of (\$1,153,426) for its proportionate share of the net OPEB liability/(asset). The OPEB liability/(asset) was measured as of June 30, 2019, and the total OPEB liability/(asset) used to calculate the net OPEB liability/(asset) was determined by an actuarial valuation as of December 31, 2016. Consistent with GASB Statement No. 75, paragraph 59(a), The District's proportion of the net OPEB liability/(asset) is determined by comparing the employer's actual, legally required contributions made during the fiscal year to the Plan with the total actual contributions made in the fiscal year of all employers. As of the measurement date of June 30, 2019 and 2018, the District's proportion was .60 percent and .61 percent, respectively. OPEB Income for the year ended June 30, 2020 was \$446,654.

NOTE 11. OTHER POST-EMPLOYMENT BENEFIT PLAN - (RHIA) - CONTINUED

Components of OPEB Expense/(Income):

Employer OPEB Expense for Measuren	nent Period
------------------------------------	-------------

Employer's proportionate share of collective system OPEB Expense/(Income)

earnings on pension plan investments		-		71,195
Net changes in proportionate share		6,335		2,812
Differences between District contributions				
and proportionate share of contributions				<u></u>
Subtotal - Amortized Deferrals (below)		6,335		227,304
District contributions subsequent to measurement date		<u>N/A</u>		<u>-</u>
Deferred outflow (inflow) of resources	\$	6,335	\$	227,304

The amount of contributions subsequent to the measurement date will be included as a reduction of the net OPEB liability/(asset) in the fiscal year ended June 30, 2021.

Subtotal amounts related to OPEB as deferred outflows of resources, \$6,335, and deferred inflows of resources (\$227,304), net to (\$220,969) and will be recognized in OPEB expense as follows:

Year ending June 30,	Amount
2021	\$ (114,682)
2022	(100,666)
2023	(12,955)
2024	7,334
2025	-
Thereafter	 -
Total	\$ (220,969)

District contributions subsequent to measurement date for RHIA are included in the PERS contributions (see Note 10) and are not booked separately as RHIA deferred outflows.

All assumptions, methods and plan provisions used in these calculations are described in the Oregon PERS Retirement Health Insurance Account Cost-Sharing Multiple-Employer Other Postemployment Benefit (OPEB) Plan Schedules of Employer Allocations and OPEB Amounts by Employer report, as of and for the Year Ended June 30, 2019. That independently audited report was dated March 1, 2019 and can be found at:

https://www.oregon.gov/pers/EMP/Documents/GASB/2019/GASB-75-RHIA-YE-06-30-2019.pdf

NOTE 11. OTHER POST-EMPLOYMENT BENEFIT PLAN - (RHIA) - CONTINUED

Actuarial Methods and Assumptions:

Valuation Date	December 31, 2017 rolled forward to June 30, 2019
Experience Study Report	2016, Published July 26, 2017
Actuarial cost method	Entry Age Normal
Inflation rate	2.50 percent
Investment rate of return	7.20 percent
Discount rate	7.20 percent
Projected salary increase	3.50 percent
Retiree healthcare participation	Healthy retirees: 35%; Disabled retirees: 20%
	Healthy retirees and beneficiaries:
	RP-2014 Healthy annuitant, sex-distinct, generational with Unisex, Social Security Data Scale, with collar adjustments and set-backs as described in the valuation. Disabled retirees: RP-2014 Disabled retirees, sex-distinct, generational with Unisex,
Mortality	Social Security Data Scale.

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2016 Experience Study which is reviewed for the four-year period ending December 31, 2016.

Discount Rate:

The discount rate used to measure the total OPEB liability as of the measurement date of June 30, 2019 and 2018, was 7.20 percent for both years. The projection of cash flows used to determine the discount rate assumed that contributions from contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the RHIA plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments for the RHIA plan was applied to all periods of projected benefit payments to determine the total OPEB liability.

Long-Term Expected Rate of Return:

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2015, revised as of June 7, 2017, the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

(Source: June 30, 2019 PERS CAFR; p. 74)

Sensitivity of the District's proportionate share of the net OPEB liability/(asset) to changes in the discount rate — The following presents the District's proportionate share of the net OPEB liability/(asset) calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-perentage-point higher (8.20 percent) than the current rate.

	1%	Decrease	Discount Rate	1% Increase
	((6.20%)	(7.20%)	(8.20%)
District's proportionate share of				
the net pension liability	\$	(894,203)	\$ (1,153,426)	\$ (1,374,303)

Changes Subsequent to the Measurement Date

There are no changes subsequent to the June 30, 2019 Measurement Date that meet this requirement and thus would require a brief description under the GASB standard.

NOTE 12. OTHER POST EMPLOYMENT BENEFITS

POST RETIREMENT HEALTH CARE

The District, as a result of collective bargaining agreements, offers post-employment health care benefits under a single-employer, defined benefit plan for all employees who have completed a specified number of years of continuous service, are eligible for full OPERS benefits, elect early retirement and were hired prior to July 1, 2006.

NOTE 12. OTHER POST EMPLOYMENT BENEFITS – (CONTINUED)

For eligible licensed employees the District will provide medical coverage for the lesser of seven years or until eligible for Medicare (age 65). For administrators, managers, supervisor and confidential employees, coverage is until Medicare eligibility date regardless of retirement age, assuming full OPERS coverage. For eligible classified employees with 15 years of service, coverage is provided up to the lesser of five years or until eligible for Medicare (age 65).

The District's post-retirement healthcare plan was established in accordance with Oregon Revised Statutes (ORS) 243.303. The plan is currently unfunded in accordance with GASB statement 75. In accordance with the terms of the plan, benefit payments are recognized when due and payable in the governmental statements. The activities of the plan are reported in the General Fund.

<u>Annual OPEB Cost and Total OPEB Liability:</u> The annual other postemployment benefit (OPEB) cost is calculated based on the Total OPEB Liability, an amount actuarially determined in accordance with the parameters of GASB Statement 75. For detailed information and a table showing the components of the District's annual OPEB costs and liabilities, see page 47.

Actuarial Methods and Assumptions: The Total OPEB Liability for the current year was determined as part of the July 1, 2019 actuarial valuation using the entry age normal method. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about mortality, claim cost and the healthcare cost trend. The actuarial assumptions included; (a) a rate of return on investment of present and future assets of 3.50% compounded annually; (b) no future increase in benefit payable from this program; (c) a general inflation rate of 2.5% per year, and (d) no post-retirement benefit increases and a payroll increase of 3.5%. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Under this method, the expected accrued benefit of each participant at benefit commencement (reflecting future expected increases in salaries and medical premiums) is allocated in equal proportion over the participant's years of service from hire to expected retirement. The normal cost is the present value of benefits expected to accrue in the current year. The present value of benefits accrued as of the valuation date is called the accrued liability.

At July 1, 2019, the following employees were covered by the benefit terms:

Active	1,169
Retired Members	63
Spouses of Ineligible Retirees	10
Total	1,242

Total OPEB Liability

The District's total OPEB liability of \$12,959,779 was measured as of June 30, 2019, and was determined by an actuarial valuation as of July 1, 2019.

Actuarial Assumptions and Other Inputs

The District's total OPEB liability in the July 1, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

NOTE 12. OTHER POST EMPLOYMENT BENEFITS – CONTINUED

Actuarial assumptions:

Valuation Date	July 1, 2019
Actuarial Cost Method	Entry Age Normal
Investment Return Assumption	The 3.50% investment return assumption is the rate in the 20-
(Interest Discount)	Year General Obligation Municipal Bond Index published by
	Bond Buyer.
Plan Participation	100% assumed will elect coverage at retirement if eligible for
	district paid insurance; 55% assumed if only eligible for self-pay
	insurance.
Medical Care Cost Trend	5.25% in 2020 and fluctuating between 4.75% and 5.50%
	thereafter
Dental primiums annual trend	4.00% per year
rate	4.00% per year
Inflation rate	2.5% for all future years
Annual salary rate increases	3.5% for all future years
Health care premium	
- 1 1 2010 1001	

Beginning in 2018, a 40% excise tax will be imposed under the Affordable Care Act on employers in the aggregate value of medical coverage exceeds a threshold limit. This excise tax is not included in the calculations because it is believed to be immaterial in regard to the OPEB plan.

Changes in Total OPEB Liability

Changes of assumptions: Interest Discount, the investment return assumption was decreased from 3.87% to 3.50%.

Total OPEB Liability at June 30, 2019	\$ 13,434,460
Changes for the year:	
Service Cost	1,341,286
Interest	553,418
Chages of Benefit Terms	-
Changes from economic/demographic gains or losses	(1,673,191)
Changes of assumptions or other inputs	264,020
Benefit Payments	(960,214)
Net Changes	 (474,681)
Total OPEB Liability at June 30, 2020	\$ 12,959,779

<u>Sensitivity of the total OPEB Liability to changes in discount rate</u>: the following presents the total OPEB liability of the District, as well as what the District's total OPEB Liability would be if it were calculated using a discount rate 1 percentage point higher and lower than the current rate.

	Current						
	1	1% Decrease Discount Rat				1% Increase	
		2.50%		3.50%		4.50%	
Total OPEB Liability	\$	13,808,405	\$	12,959,779	\$	12,155,331	

NOTE 12. OTHER POST EMPLOYMENT BENEFITS - CONTINUED

<u>Sensitivity of the total OPEB Liability to changes in the healthcare cost trend rates</u>: the following presents the total OPEB liability of the District, as well as what the District's total OPEB Liability would be if it were calculated using health care cost trend rates that are 1 percentage point higher and lower than the current healthcare cost trend rates.

		Current		
	Healthcare			
	_1% Decrease		1% Increase	
Total OPEB Liability	\$ 11,672,514	\$ 12,959,779	\$ 14,465,298	

<u>OPEB Expense and Deferred Inflows of Resources Related to OPEB:</u> For the year ended June 30, 2020, the District recognized OPEB expense of \$725,471 in the government wide Statement of Activities. At June 30, 2020, the District reported deferred inflows of resources relating to the following sources:

	Deferred Outflow	De	ferred Inflow
	of Resources	0	f Resources
Difference between expected and actual experience	\$ -	\$	(1,461,395)
Changes in assumptions	230,600		(566,183)
Subtotal - Amortized Deferrals (below)	230,600		(2,027,578)
Contributions made subsequent to measurement date	875,107		
Deferred outlfow (inflow) of resources	\$ 1,105,707	\$	(2,027,578)

The amount of contributions subsequent to the measurement date will be included as a reduction of the net OPEB health care liability in the fiscal year ended June 30, 2021.

Subtotal amounts related to OPEB health care as deferred outflows of resources, \$230,600, and deferred inflows of resources, (\$2,027,578), net to (\$1,796,978) and will be recognized in OPEB health care expense as follows:

Year ending	
June 30,	Amount
2021	\$ (294,126)
2022	(294,126)
2023	(294,126)
2024	(294,126)
2025	(261,319)
Thereafter	(359,155)
Total	\$ (1,796,978)

NOTE 12. OTHER POST EMPLOYMENT BENEFITS - CONTINUED

EARLY RETIREMENT PLAN - STIPENDS

The District also operates a single-employer early retirement stipend plan.

At July 1, 2019, the following employees were covered by the benefit terms:

Active	1169
Retired Members	63
Spouses of Ineligible Retirees	10
Total	1242

The following table shows the changes in total OPEB pension liability for the year ending June 30, 2020:

Total OPEB Pension Liability at June 30, 2019	\$ 2,269,973
Changes for the year:	
Service Cost	174,473
Interest	90,686
Chages of Benefit Terms	-
Changes from economic/demographic gains or losses	(134,012)
Changes of assumptions or other inputs	(41,255)
Benefit Payments	(204,191)
Net Changes	 (114,299)
Total OPEB Pension Liability at June 30, 2020	\$ 2,155,674

Actuarial Methods and Assumptions: The total pension liability above was determined by an actuarial valuation as of the valuation date calculated based on the discount rate and actuarial assumptions listed below, and was then projected forward/backwards to the measurement date. The unfunded accrued liability is amortized over an open period of 4 years as a percentage of payroll, and is still open.

Valuation Date	July 1, 2019
Measurement Date	June 30, 2019
Actuarial Cost Method	Entry Age Normal
Investment return assumption	
(interest discount)	3.50% per year
	Based on Oregon PERS valuation assumptions as of
Demographic Assumptions	December 31, 2018
Inflation Rate	2.5% per year
Salary Increases	3.5% per year

<u>Sensitivity Analysis:</u> The following presents the total pension liability of the plan, calculated using the discount rate as of the measurement date, as well as what the plan's total pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate.

	Current					
	1% Decrease 2.50%		D	Discount Rate		% Increase
			3.50%		4.50%	
Total Pension Liability	\$	2,263,093	\$	2,155,674	\$	2,049,221

NOTE 12. OTHER POST EMPLOYMENT BENEFITS - CONTINUED

EARLY RETIREMENT PLAN – STIPENDS - CONTINUED

For the year ended June 30, 2020, the District recognized a pension expense of \$45,352. At June 30, 2020, the District reported deferred outflows and inflows of resources related to the early retirement plan from the following sources:

	Deferred Outflow		Deferred Inflow	
	of Resources		of Resources	
Difference between expected and actual experience	\$	-	\$	(126,843)
Changes in assumptions		72,405		(114,437)
Subtotal - Amortized Deferrals (below)		72,405		(241,280)
Contributions made subsequent to measurement date		191,623		<u>-</u>
Deferred outlfow (inflow) of resources	\$	264,028	\$	(241,280)

The amount of contributions subsequent to the measurement date will be included as a reduction of the net OPEB stipend liability in the fiscal year ended June 30, 2021.

Subtotal amounts related to OPEB health care as deferred outflows of resources, \$72,405, and deferred inflows of resources, (\$241,280), net to (\$168,875) and will be recognized in OPEB health care expense as follows:

2025	(28,180))	
Thereafter	(27,959)	<u>)</u>	
Total	\$ (168,875)	<u>)</u>	

NOTE 13. TAX ABATEMENTS

As of June 30, 2020, the District had material tax abatements through one program: Enterprise Zone.

Enterprise Zone (ORS 285C.175):

The Oregon Enterprise Zone program is a State of Oregon economic development program established, that allows for property tax exemptions for up to five years. In exchange for receiving property tax exemption, participating firms are required to meet the program requirements set by state statute and the local sponsor.

The Enterprise Zone program allows industrial firms that will be making a substantial new capital investment a waiver of 100% of the amount of real property taxes attributable to the new investment for a 5-year period after completion. Land or existing machinery or equipment is not tax exempt; therefore, there is no loss of current property tax levies to local taxing jurisdiction.

For the fiscal year ended June 30, 2020, the District had abated taxes totaling \$1,822,447 under this program.

NOTE 14. OPERATING LEASES

In December 2015, the district entered into a 5 year lease agreement with Copiers Northwest Inc. to lease printers and equipment. The district pays quarterly at a minimum of \$61,488 with overage charges per copy. In the fiscal year ended June 30, 2020 the district paid approximately \$258,000 in payments and overages. The lease ends in December 2020.

In May 2018, the district entered into a 3 year lease agreement with MailFinance Neopost West to lease a stacker, inserter, and other document preparation equipment. Monthly payments for this agreement are \$1,193. The district paid Neopost \$15,968 in the fiscal year ended June 30, 2020, and will continue to do so until the lease ends in May 2021.

Future Lease Obligations are as follows:

Year	Equipment			
2020-21	\$	138,943		
Total	\$	138,943		

NOTE 15. RISK MANAGEMENT

There is exposure to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which commercial insurance is purchased. There were no significant reductions in insurance coverage from coverage in prior years in any of the major categories of risk. Also, the amounts of any settlements have not exceeded insurance coverage for the past three fiscal years.

NOTE 16. COMMITMENTS AND CONTINGENCIES

Substantially all amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although management expects such amounts, if any, to be immaterial.

A substantial portion of operating funding is received from the State of Oregon. State funding is determined through state wide revenue projections that are paid to individual school districts based on pupil counts and other factors in the state school fund revenue formula. Since these projections and pupil counts fluctuate they can cause either increases or decreases in revenue. Due to these future uncertainties at the state level, the future effect on the District's operations cannot be determined.

The COVID-19 outbreak in the United States has caused substantial disruption to business and local governments due to mandated and voluntary suspension of operations and stay at home orders. There is considerable uncertainty around the duration of the outbreak and the long-term impact to the overall economy. However, the District expects the reduction of economic activity to negatively impact funds received.

NOTE 17. PROPERTY TAX LIMITATION

The voters of the State of Oregon approved ballot measure 5, a constitutional limit on property taxes for schools and nonschool government operations, in November 1990. School operations include community colleges, local school districts, and education service districts.

The limitation provides that property taxes for school operations are limited to \$5.00 for each \$1,000 of property market value. This limitation does not apply to taxes levied for principal and interest on general obligation bonded debt. The result of this initiative has been that school districts have become more dependent upon state funding and less dependent upon property tax revenues as their major source of operating revenue.

The voters of the State of Oregon passed ballot measure 50 in May 1997 to further reduce property taxes by replacing the previous constitutional limits on tax bases with a rate and value limit.

Measure 50 reduced the amount of operating property tax revenues available to the District for its 1997-98 fiscal year, and thereafter. This reduction was accomplished by rolling property values back to their 1995-96 values less 10% and limiting future tax value growth of each property to no more than 3% per year, subject to certain exceptions. Taxes levied to support bonded debt are exempted from the property tax limitations. The measure also sets restrictive voter approval requirements for most tax and many fee increases and new bond issues, and requires the State of Oregon to minimize the impact of the tax cuts to the school districts.

SPEICAL REVENUE FUNDS

Nutrition Service Fund 297

Accounts for revenues an expenditure for the food dispensing programs, Principal revenue sources are sales of food and subsidies under the National School Lunch and Breakfast Programs received through the State of Oregon, and a transfer from the General Fund for "match". Fresh Fruit and Vegetable Program: Accounts for revenues and expenditures for a series of grants within Nutrition Services to provide produce for individual schools.

State and Local Programs Funds 251-296

Accounts for revenues and expenditures of grants that are generally restricted for specific education projects. Principal revenue source are state and local grants.

Driver's Education

Accounts for revenues and expenditures to support the driver's education class at the high school. The principal source of revenue is received from ODOT and class fees.

E-Rate

Accounts for revenues and expenditures from the Schools and Libraries Program related to telecommunications and internet access.

Energy Efficient Schools - SB 1149

Accounts for revenues received under the Senate Bill 1149 which introduces competition into the retail electricity market of Oregon's two largest utilities, Portland General Electric and PacifiCorp.

Together We Are Greater Than

Formerly, the I Have a Dream — 2017 Alder Montessori Fund. The organization had a name change in 2018. Provides funding for Alder Montessori. (Funding no longer received from this award but remains for history purposes.)

Mt Hood Cable Regulatory Commission Grant

Accounts for revenues and expenditures relating to enhancement of technology projects throughout the district such as communications involving video, data applications. Funding source are through Multnomah County, Comcast, Frontier and Cascade Access. (Funding no longer received from this award but remains for history purposes.)

Other Contracts & Grants

Accounts for various grants received throughout the district.

Contract Fuel Sales

Accounts for revenues received from local city governments for fuel provided at an average monthly cost plus an administration fee.

Student Activities

Accounts for revenues and expenditures of all schools' student body funds. The revenue sources are participation fees, donations and fund-raising activities. Individual accounts are kept at each school; this fund summarizes all activity at year-end.

Non-ASB

Accounts for revenues and expenditures generated by fees at the school level, including donations, early childhood department, graphics department, etc.

Reynolds Education Foundation

Accounts for revenues and expenditures received from REF for classroom supplies. (Funding no longer received from this award but remains for history purposes.)

Project Lead the Way

Accounts for revenues and expenditures received from the State Board of Higher Education on behalf of the Oregon University System for the engineering and technology program. (Funding no longer received from this award but remains for history purposes.)

Four Corners Tuition

Accounts for revenue and expenditures received from other school districts as tuition payment for students attending Treatment Program. (Funding no longer received from this award but remains for history purposes.)

Seismic Rehab Grant

Accounts for revenues and expenditures for reinforcing the structure within RMS to better withstand seismic activity. (Funding no longer received from this award but remains for history purposes.)

Multnomah County Agreement

Accounts for revenues and expenditures to be used for attendance TOSA to support attendance work at Glenfair Elementary and Alder Elementary. Funding source through Multnomah County. (Funding no longer received from this award but remains for history purposes.)

PPS / Columbia Regional Autism

Accounts for revenues and expenditures for autism services. The primary source of revenue comes from the Columbia Regional Program who receives autism funding from the state.

MYC Fees for Service

Accounts for revenue and expenditures related to the Multnomah Youth Cooperative program at Reynolds Learning Academy. The primary source of revenue is local state entities that pay a fee for the services provided by students.

Outdoor School (Measure 99)

Accounts for the revenue and expenditures to provide outdoor school.

CTE Pathways

Accounts for revenues and expenditures from ODE for incentivization of high school programs to attract and graduate students from traditionally underserved populations through their CTE Programs of Study. In 2016, CTE Pathways funds were awarded to RHS Graphic Arts, Computer Information Systems, and Construction Manufacturing.

Student Monitoring and Mentorship Grant

Accounts for the revenues and expenditures for serving at-risk students rising from 8th to 9th grade. Interventions are instrumental to maintain a smooth path toward students achieving credits to stay on track to graduate. (Funding no longer received from this award but remains for history purposes.)

Career Education (Measure 98)

Accounts for revenues and expenditures dedicated to improving graduation rates through Career and Technical Education (CTE).

PEEK-8 Physical Education Expansion K-8

Accounts for additional revenues and expenditures allocated to hire licensed physical education teachers to support activities related to meeting the physical education instructional requirements for students as described in OAR 581-020-0250.

Seismic Rehab Grant 2016-17

Accounts for the revenues and expenditures related to facility upgrades to meet seismic standards. State of Oregon competitive grant through Oregon Department of Education. (Funding no longer received from this award but remains for history purposes.)

Closing the Achievement Gap

Accounts for revenues and expenditures relating to closing the academic achievement gap for African American learners' links between home, school and community and promoting equity for our school toward Oregon Department of Education 40-40-20 goal. (Funding no longer received from this award but remains for history purposes.)

MYC PIC (Partners in Conservation)

Accounts for revenues and expenditures from East Metro Soil and Conservation District, to provide funding for service learning projects for students at RLA. (Funding no longer received from this award but remains for history purposes.)

Educator Effectiveness

Accounts for the revenues and expenditures related to improving student achievement through effective teachers and leaders, through collaboration with educational partners and stakeholders to create a supportive state policy infrastructure focused on educator effectiveness leading to improved student learning. (Funding no longer received from this award but remains for history purposes.)

Summative Assessment

Accounts for revenues and expenditures to successfully transition from the state test (OAKS) to the Smarter Balanced summative assessment system for students in Grades K-9.

Miller Family Grant

Accounts for revenues and expenditures to expand teacher training, tutor wages, and technical assistance in order to enhance AVID programming at middle school levels.

Improvement Planning Grant

(Funding no longer received from this award but remains for history purposes.)

Summer Works Grant

The Youth Work Experience Program allows students with disabilities to learn employability skills and transition seamlessly into competitive employment. Reynolds School District received and implemented the Summer Work experience during the summer of 2017. The Summer Work experience allowed students to gain positive work skills and training in a professional environment which contributed to their successful placement today.

Youth Transition Program

Accounts for the revenues and expenditures related to an intergovernmental agreement in association with a youth transition program. The primary source of revenue is State of Oregon Department of Human Services.

RLA Playground

Accounts for revenues and expenditures to improve the RLA playground and for enhancing services to the teen parents and children by partnering with Mt. Hood as an Early Childhood Head Start Program. This is a one-time grant from MHCC. (Funding no longer received from this award but remains for history purposes.)

HB3499 ELD Transformation & Target

Accounts for revenues and expenditures to improve outcomes for English Language Learners (ELLs). This is an implementation grant. (Funding no longer received from this award but remains for history purposes.)

MHCC - Early Head Start

Accounts for revenues and expenditures to support RLA Teen Parent Day Care Center. To be used for facility improvements, staff training requirements, curriculum purchase and furniture replacement. Additionally, a separate reimbursement contract will be specifically dedicated to redesign and improve the outdoor playground space dedicated to the Teen Parent Day Care Center. Funding source through the Department of Health and Human Services for Early Head Start Partnership through MHCC. (Funding no longer received from this award but remains for history purposes.)

Verizon Innovative Learning

Accounts for revenues and expenditures as part of a grant awarded to select US middle schools to create innovative learning environments and document the process so others can learn from the experiences of the schools awarded the grant. The grant provides a device for every middle school student and teacher, professional development and coaching to enhance the learning environment.

School Based Health Center

Accounts for revenues and expenditures for construction of a school based health center located at Reynolds High School.

Student Investment Account

The Student Investment Account (SIA) comes from the Student Success Act. Oregon Governor Kate Brown signed House Bill 3427, the Student Success Act, into law on May 2019. The purpose of the Student Success Act was to correct underinvestment in our schools and our children and includes sweeping provisions for new and improved services for children and families.

Self Insurance Fund 299

Accounts for costs incurred by the District under its general liability, including but not limited to property liability, Boiler and Machinery/Equipment Breakdown, Crime, Business Auto and Public Entity Liability. Primary source of revenue are insurance claim payments, rebates and General Fund transfers.

Note: Details regarding the District's outstanding debt can be found in the notes to the financial statements

(1) ORS 328.245 establishes a parameter of bonded indebtedness for school districts. Aggregates are governed by real market values of all taxable properties within the District bases on the following: (A) For each grade from kindergarten to eighth for which the District operates schools, fifty-five one-hundredths of one of one percent(.0055) of real market value. (B) For each grade from ninth to twelfth for which the District operates schools, seventy-five one-hundredths of one percent (.0075) of real market value. Allowable percent of real market value: (A)Kindergarten through eighth grade, 9*.0055=4.95% (B) Ninth through twelfth grade, 4*.0075=3.00% or 7.95% of real market value. Real market value data can be found on Table of Assessed Value and Actual Value of Taxable Property.

(2) The legal debt margin is the District's available borrowing authority under ORS 328.245 and is calculated by subtracting the net debt applicable to the legal debt limit from the legal debt limit.

(3) Demographic and Economic Statistics can be found on Personal Income and Population and Assessed Value and True Cash Value Pages.

Source: Municipal Debt Advisory Commission, State of Oregon.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

⁽¹⁾ Gross bonded debt includes all bonds backed by a general obligation pledge including self-supporting general obligation bonds and limited tax debt.

⁽²⁾ Net direct debt including all tax-supported bonds. Self-supporting bonds are excluded.

⁽³⁾ The percentage of overlapping debt is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the overlapping district's taxable assessed value that is within the school district's boundaries and dividing it by the overlapping district's total taxable assessed value. These percentages are calculated by the State of Oregon Municipal Debt Advisory Commission.

MULTNOMAH COUNTY SCHOOL DISTRICT NO. 7 MULTNOMAH COUNTY, OREGON INDEPENDENT AUDITORS' REPORT REQUIRED BY OREGON STATE REGULATIONS

PAULY, ROGERS, AND Co., P.C. 12700 SW 72nd Ave. Tigard, OR 97223 (503) 620-2632 (503) 684-7523 FAX www.paulyrogersandcocpas.com

December 14, 2020

Independent Auditors' Report Required by Oregon State Regulations

We have audited the basic financial statements of Multnomah County School District No. 7 as of and for the year ended June 30, 2020, and have issued our report thereon dated December 14, 2020. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards.

Compliance

As part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statues as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of the basic financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295)
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation.

In connection with our testing nothing came to our attention that caused us to believe Multnomah County School District No. 7 was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the internal controls over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the internal controls over financial reporting.

This report is intended solely for the information and use of the Board of Directors and management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

December 14, 2020

To the Board of Directors Multnomah County School District No. 7 Multnomah County, Oregon

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the governmental activities, each major fund, and the aggregate remaining fund information and fiduciary funds of Multnomah County School District No. 7 as of and for the year ended June 30, 2020, and the related notes to the basic financial statements, which collectively comprise the basic financial statements, and have issued our report thereon dated December 14, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the basic financial statements, we considered the internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, we do not express an opinion on the effectiveness of internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the basic financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the basic financial statements are free from material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our

audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

December 14, 2020

To the Board of Directors Multnomah County School District No. 7 Multnomah County, Oregon

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Report on Compliance for Each Major Federal Program

We have audited Multnomah County School District No. 7's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the major federal programs for the year ended June 30, 2020. The major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of compliance.

Opinion on Each Major Federal Program

In our opinion, Multnomah County School District No. 7, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

None

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

1. BASIS OF PRESENTATION

The schedule of expenditures of federal awards in this report includes federal grant activity under programs of the federal government. The information in this schedule is presented in accordance with the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations, it is not intended to and does not present the net position, changes in net position, or cash flows of the District.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule of expenditures of federal awards are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The District has elected not to use the ten percent de minimis indirect cost rate as allowed under Uniform Guidance, since they already have a negotiated indirect cost rate with the Oregon Department of Education, and therefore is not allowed to use the de minimis rate.
