

## 2013-2014 Report Card Rating Details

Public Version - Final - October 9, 2014

District: Reynolds SD 7

School: Hauton B Lee Middle School

The purpose of the Report Card Rating Details report is to describe the rating methodology and display the data used by the school accountability system to determine the overall school rating that is shown on each school's Report Card. The Oregon Department of Education (ODE) piloted the school accountability system in 2011-2012 to identify Priority, Focus, and Model schools as part of the ESEA Waiver. For more details on the school report cards, please visit the following link: http://www.ode.state.or.us/go/schoolRC.

## **Overall Level: Level 3**

Performance Indicator	Level	% of Points Earned	Weight	Weighted Points
Academic Achievement	Level 2	30.0%	25	7.5
Academic Growth (page 4)	Level 3	60.0%	50	30.0
Subgroup Growth (page 5)	Level 3	57.5%	25	14.4
Number of Missed Participation Targets*	0	NA		
* Schools do not receive points for participation.  However, a school's overall Level is lowered by one level for each consecutive year that it did not meet all participation targets, starting in 2012-13.		Totals**		51.9
** Schools may not be eligible for all possi Schools are not rated in categories where meet minimum student count requirement	they do not	Weigh Perce		51.9%

Level Assignment	Weighted Percent
Level 5	87.0 or above
Level 4	70.0 to 86.9
Level 3	47.0 to 69.9
Level 2	26.5 to 46.9
Level 1	Less than 26.5

Levels are calculated using the percentage of points earned out of the total points eligible. For schools with data on all indicators, the total points possible are:

- 25 for Academic Achievement
- 50 for Academic Growth
- 25 for Subgroup Growth
  The total score is matched to the
  scoring guide above to
  determine the school's rating.

### 2013-2014 Academic Achievement Details

Public Version - Final - October 9, 2014

District: Reynolds SD 7

School: Hauton B Lee Middle School

The Academic Achievement indicator rating reflects the percent of all students that meet or exceed standards on the state reading and mathematics assessments at all tested grades in the school. Note that, despite their display below, the Academic Achievement indicator rating does not include subgroup data as described in Oregon's ESEA Waiver.

Achievement Level Cutoffs

#### Data notes:

Not Rated Subgroup did not meet minimum size requirement in order to receive a rating.

- \* Fewer than 6 students tested in the last two years combined
- >95.0 Greater than 95 percent of students met or exceeded. Test counts are also suppressed.
- <5.0 Less than 5 percent of students met or exceeded. Test counts are also suppressed.

### 2013-2014 Academic Growth Details

Public Version - Final - October 9, 2014

**District:** Reynolds SD 7

School: Hauton B Lee Middle School

The Academic Growth indicator uses the Colorado Growth Model to measure student growth in reading and mathematics as compared to academic peers (i.e., students throughout the state who have a similar reading or math test score history). Oregon adopted this growth model as part of the process of obtaining a waiver from some of the requirements of the No Child Left Behind Act (NCLB). This growth model provides a more complete picture of student performance and will help provide a better evaluation of school effectiveness.

Growth Level Cutoffs					
Level	On Track Growth				
Levei	Yes	No			
Level 5	60 & above	70 & above			
Level 4	45 to 59.5	55 to 69.5			
Level 3	35 to 44.5	45 to 54.5			
Level 2	30 to 34.5	40 to 44.5			
Level 1	Less than 30	Less than 40			

The growth model looks at a student's growth as compared to that of his/her academic peers with a similar test score history. The Growth Model subsequently expresses student growth as a percentile. For example, a growth percentile of 50 would indicate that a student had average growth compared to all other students in the state with similar prior test scores. A growth percentile of 80 would indicate that a student's growth was as high or higher than 80 percent of his/her academic peers.

The school accountability system uses the median growth percentile which represents "typical" growth at the school. As shown below, this median growth percentile is the basis for the Academic Growth ratings for reading and mathematics. The growth model also provides growth targets for students in grades 3 to 8. These growth targets represent the growth percentile a student would need to meet the standard within three years (for those students currently below standard) or to maintain standard for the next three years (for those students above standard). The school accountability system uses the median growth target to determine whether students at the school have On Track growth:

- If the Combined Median Growth Percentile = Combined Median Growth Target, then On Track Growth = 'Yes'
- If the Combined Median Growth Percentile < Combined Median Growth Target, then On Track Growth = 'No'

On Track growth is used to determine the growth levels (see the Growth Level Cutoffs table in the upper right corner of this page).

## 2013-2014 Subgroup Growth Details

Public Version - Final - October 9, 2014

District: Reynolds SD 7

School: Hauton B Lee Middle School

The Subgroup Growth indicator measures the growth of historically underserved student subgroups. It disaggregates the Academic Growth indicator and reflects the growth for economically disadvantaged, limited English proficient, students with disabilities, and historically underserved races/ethnicities. To receive a Subgroup Growth indicator rating, a subgroup must meet the minimum size requirement for the Academic Achievement indicator rating (i.e., 40 tests in the last two years combined) and have at least 30 students with growth percentiles.

# 2013-2014 Participation Details

Public Version - Final - October 9, 2014

**District:** Reynolds SD 7

School: Hauton B Lee Middle School

All students enrolled on the first school day in May must take a statewide assessment. The tables below display the percentage of students who took a statewide assessment by school year, subject, and subgroup. The tables also indicate whether each subgroup met the federal participation rate target of 94.5%. The overall school rating as well as the Academic Achievement, Academic Growth, and Subgroup Growth indicator ratings depend upon student test scores. These ratings are valid only when schools uniformly test all students. As a result, schools with one or more subgroups missing the participation target will receive a reduction in their overall school rating by one Level.

**Participation Target: 94.5%**

## 2013-2014 OAKS and Field Test Participation Details

Public Version - Final - October 9, 2014

District: Reynolds SD 7

School: Hauton B Lee Middle School

The tables below display the Smarter Balanced field test and OAKS participation rates by grade and subject, and are only applicable to schools that administered the field test in 2013-14. The OAKS participation rate must be at least 94.5% in each field test grade and subject to include OAKS scores in the Academic Achievement, Academic Growth, and Subgroup Growth indicators.

Field test schools may choose to appeal the inclusion or exclusion of OAKS scores. In the event of a successful appeal, the "Include OAKS" field below will reflect the result of the appeal (either the inclusion or exclusion of OAKS scores) regardless of the OAKS participation rate. The Academic Achievement, Academic Growth, and Subgroup Growth indicators will reflect the inclusion or exclusion of OAKS scores based on the successful appeal.
