Schoology (contains course materials & updates) → reynolds.schoology.com

StudentVue (contains student grades for course work)

Required Materials:

Each student is required to come to class with the following materials to be successful:

- Charged Chromebook or personal laptop and charging cord (*required daily)
- Three-Ring-Binder with a section or folder dedicated to this course
- Writing utensils: pencils, pens, erasers, highlighters

Course Description:

Modern World History is a required yearlong course (**1 credit – ½ credit each semester**) designed to allow students to explore the 20th century world through geography, history, civics, and economics. Students will use social science analysis tools to think about the world they live in, to examine their place as citizens and consumers and to analyze and form thoughtful opinions about world events both historical and current.

Course Requirements:

This course is designed with individual units that focus on significant events in human history as well as geographic skills and world religions. Each unit will conclude with a summative assessment. This will typically take form in a unit exam which covers all materials assigned, discussed, or shared during that unit. Each unit exam will be accompanied with a key terms study guide and there will be a review before each exam. During these units expect there to be a multitude of assignments and occasionally projects potentially in the form of presentations, reports, travel brochures, journal entries, or written essays.

Course Schedule/Outline of Units:

Semester 1				
Unit 1	Industrial Revolution & Empire Building (1750-1914)			
Unit 2	World War I & Russian Revolution (1914-1919)			
Unit 3	Interwar Period, Rise of Dictators & World War II (1939-1945)			
Semester 2				
Unit 4	World Religions Project			
Unit 5	5 The Holocaust & the Cold War (1945-1990)			
Unit 6	Decolonization – Asia, Africa, Middle East (1945-Present)			

Grading Policy Description:

Students will earn their grade based on points accumulated form a variety of assignments, quizzes, tests, homework, and projects throughout the school year. There are four main categories from which students may earn points towards their grade:

Category	Weight of Overall Grade	
POWER	5%	
Coursework	25%	
Classwork	15%	
Geography	10%	
Quizzes	10%	
Mastery	35%	

- POWER relates to classroom expectations every day to support daily academic habits.
- Coursework refers to all lessons guided notes, must-do and should-do assignments.
- Classwork refers to in-class activities (group or individual) designed to practice achieving mastery content.
- **Geography** relates to in-class assignments to broaden our geographical knowledge (maps, atlas handouts, map quizzes, etc.)
- Quizzes are short assessments from lecture videos. These can only be completed in class.
- Mastery is displayed in assessments such as tests, projects, etc. and are of the greatest significance. Anything completed or discussed in class, along with Coursework and Classwork, is fair game for Mastery assessments.

Letter Grade Description & Percentage Breakdown:

Grade %	Letter Grade	Description		
100-90%	Α	The student fully understands the content and the course objectives have been mastered.		
89-80%	В	The student understands the content and course objectives at an above average level.		
79-70%	С	The student understands the course content and course objectives at an average level.		
69-60%	D	The student does not understand the course content and a minimum of course objectives are met.		
59-0%	F	The student has not met a sufficient number of course objectives to pass a minimum level and receives no credit.		

Late Work Policy:

In this blended classroom model, assignments are tied to individual lessons, which are outlined on your **Individual Progress Tracker (IPT Sheet)**. Each student will progress at their own pace but should try to keep pace to complete lessons before the next class period. As such, assignments are not marked late (unless given a specified deadline). There are however firm deadlines or cut-off dates for graded work, when assignments will lock on Schoology or no longer be accepted. These will be written on the assignment board and should be transcribed on your IPT sheet.

After an absence, **students are responsible** for seeking what was missed, handouts, or assignments. Login to **Schoology** and refer to the **Week Ahead** document to see what was on the schedule for the day you were absent.

Test-Retake Policy:

Any student that scores below 75% on a unit test qualifies to re-take an alternate version of the test. To retake a test (Mastery), the student must complete all "must-do" lessons from the Individual Progress Tracker (IPT handout) for that unit. The maximum score possible for an exam retake will be capped at 85% (B). This is intended to encourage students prepare for the exam, the first go around.

Academic Honesty:

Students are expected to do their own work and cite the work of others as appropriate. Plagiarism is the willful presentation of someone else's previously written, published, or copyrighted material as one's own. Copying work from someone else may be regarded as plagiarism if done without consent and if credit is not given to the original writer. Penalties for cheating and/or plagiarism may include but not limited to the following: failing the assignment, failing the project or course, and/or subject to further disciplinary action.

Class Expectations:

<u>Letter</u>	Stands for	What does this look like in our classroom?	
Р	Prepared & Punctual	Arrives promptly, seated, with laptop, and is ready to learn before the bell rings.	
0	Organized	Maintains a binder, folder, or notebook for class materials – separate from other courses.	
W	Writers	Prepared to write daily through critical analysis of content (notes, short writes, assignments, etc.).	
E	Engaged	Follows directions, attentive, and willing to actively participate during class and in Schoology.	
R	Respectful	Respect for teacher, peers, as well as the space and property they occupy. Open and willing to learning new ideas, information, and differing viewpoints.	

Time Management: Productive use of time will be essential to success in class; chronic tardiness indicates a lack of respect for other students, the teacher, and yourself. This is a path to failure at work, hinders your ability to learn, and therefore unacceptable.

End of the Period: No matter what activity we've been engaged in during the period, we will reassemble as a class, in your assigned seats, during the last few minutes for a final wrap-up, announcement, etc. **Please remain at your assigned seats until the bell rings**. Do **NOT HERD** at the door like cattle.

Learning Environment: Desktops need to be kept clear for notetaking, completing assignments, etc.; all purses, bags, backpacks, suitcases, etc. are to be kept somewhere other than the desktop.

Food & Drink: I strive to keep my room clean and clear of clutter and pests. To better provide a safe and healthy learning environment I ask that you do not bring any food or drink (other than water) into the classroom. If they must accompany you, then please leave them at the desk in the rear of the room next to the door until the end of the period; otherwise, finish them before entering the classroom.

Hall Passes: You are expected to be in class during class time. RHS administration requires that students have their planners signed when released from class; these releases include water, bathroom, locker, the nurse, or the library. Yes, you need a pass to go to the water fountain and the bathroom, and yes, I know they are right outside the room, but to be fair everyone must have their planner signed, even for nearby destinations.

Electronic Devices Policy:

When you enter the classroom, your phone will need to remain in your backpack/bag. Your phone does not need to be out during class time: instruction, discussion, activities, etc. Do **NOT** have your phone out on your desk or in your pocket. Put it in your backpack/bag so that it's not a distraction.

Students are expected to only use personal technology devices (smart phones, music devices, tablets, laptops) in a responsible and appropriate manner. The teacher has the right to confiscate any electronic device if it is determined to be interfering with the educational process (teacher's discretion). If a personal technology device is confiscated and not returned because of repeated offenses, it will be turned over to the student management team (SMT) in accordance with school policies. Students will follow school policies and procedures to recover the device in accordance with the student rights and responsibilities.

Phone Locker

With administrative approval, this classroom will have a phone locker that will require students to place their phones for safe keeping and to limit distractions in the classroom. It will be at the teacher's discretion when this locker will be used. When directed, students will be required to place their phone in the locker during class time and will not be allowed to access them until the locker is opened by the teacher. This may be the entire class period or a short portion of class time. Regardless, by the end of the period the locker will be opened, and students will retrieve their phones.

Content Advisory:

When we discuss current or historical issues in class, I hope you will feel comfortable in expressing yourself and your views; everyone's opinion is valuable to our discussions. I encourage you to express your views, but in a way that is respectful of, and protects the dignity of, your peers; therefore, putdowns and insults, including those based on characteristics such as race, gender, ethnicity, prejudices, religion, appearance, sexual orientation, gender identity, etc. will not be tolerated.

Mature adults understand that studying Modern World history necessarily involves facing content that is potentially controversial and/or upsetting, and it would be foolish for me to suggest that I can give a "heads up" every time that potentially upsetting content will arise. We will examine aspects of history that our society generally sees as glorious, along with what are regarded today as much darker aspects. The latter will sometimes involve language, images, and ideas that are offensive to most people in present day.

The easier path for me, as well as some of you, would likely be to avoid such content altogether; however, I would be failing you as your instructor if I did not ask you to grapple with the darker parts of our past in order to gain a fuller understanding of where we've been, develop insights into where we are today, and formulate ideas of how we can be a better society going forward.

So, I will not infantilize you by seeing you as so fragile, so at risk of being harmed or damaged, as to need "protection", from words books, ideas, imagery, and speakers; you are resilient enough to engage with any of the course's materials.

However, please feel free to reach out to me if you have any q	uestions, concerns, etc., about any of this.
