Description:

Astronomy is a project-based class that introduces ideas and concepts of astronomy. In this class you will explore your sense of wonder and expand your curiosity to learn about the cosmos and everything contained in it. You will experience at least 6 different ways to think about the material presented.

<p>Semester 1 (Sept-Jan) Semester 2 (Feb-Jun)</p> <ul style="list-style-type: none"> • Life of an astronaut • Ancient astronomy • The Big bang • Galaxies • Solar systems • Stars • Supernovas • Planets • Moons • Black holes • Asteroids/meteors/comets 	<p>Content breakdown: This course will include all the following content.</p> <ul style="list-style-type: none"> • Lecture • Short videos • Relevant movies • Projects • Summary papers • Quizzes

Mastery checks

There are no tests in this course. Your mastery check will consist of short unit summary/paper or a short quiz of no more than 10 questions.

Homework

This course will not require work be done outside of class, (No homework). This course is designed so that all material covered and related work can be completed during class time.

Supplies

- Composition notebooks.
- Chromebooks
- Pen or Pencils

Classroom rules

- Be respectful of everyone and their space.
- Be safe. Use good judgment during class. Your safety and the safety of your classmates is the number one priority.
- Follow along and pay attention. In addition to learning the material presented, you never know if something you come across peaks your interest and leads you to a new adventure in learning.
- No phones during class. In accordance with the district policy, there are no phones out during class time. In addition to this policy, I have already gone over my classroom expectation for phones and electronic use during class.
