**Classroom rules**

- Be respectful of everyone and their space.
- Be safe. Use good judgment during class. Your safety and the safety of your classmates is the number one priority.
- Follow along and pay attention. In addition to learning the material presented, you never know if something you come across peaks your interest and leads you to a new adventure in learning.
- No phones during class. In accordance with the district policy, there are no phones out during class time. In addition to this policy, I have already gone over my classroom expectation for phones and electronic use during class.
