

Reynolds High School

Metals Manufacturing Safety Contract

The metalworking facility in Reynolds High School is designed to give students the opportunity to pursue both creative and professional paths within metalworking.

The highest priority of the program is to ensure a safe and inclusive learning environment for all students.

Please read the following with your student(s) and check each box to indicate your understanding.

- ☐ Many of the processes students will engage in have potential dangers
- ☐ Students will be trained to engage in these processes safely
- ☐ Students may be barred from certain processes for failure to meet safety and / or professionalism expectations
- ☐ Students that have been barred from a process can expect to receive a poor grade for that unit
- ☐ In the case of extreme safety violations, a meeting with a parent / guardian must be arranged before the student can return to the metal shop.
