

Reynolds High School

Integrated Science 9

Building Relationships for Academic Success

Instructor Name **Wakely Wolf** **Phone: (503)667-3186 Ext. 1087**

Room Number **204** **Email Address: wwolf@rsd7.net**

Required Textbooks/Materials:

Students **MUST** bring the following supplies **EVERYDAY!**

- Composition Notebook or Spiral
- RHS Laptop
- Headphones or earbuds
- Pen or Pencil (They run out faster than you think!)

Course Description — Integrated Science is a project-based class. We cover many different types of sciences with a mixture of activities, labs, and traditional classroom work.

Homework

There are no regular homework assignments! Students will be provided enough time in class to do classwork, labs, and projects. Each minute of class is precious. Students will be expected to work from bell to bell.

I encourage students to spend time doing things that actually improve academic performance: after-school activities, eating dinner with their families, and getting a good night's sleep.

Grading Policy

- Classwork (Formative-30% of the grade):
Most classwork are end-of-lesson assessments called *mastery checks*. Mastery checks are worth 1 point each. You may not finish every single mastery check, and that is ok.
- Projects / Exams (Summative-70% of the grade):
Each unit is based around a project. We will be working on projects throughout the unit.

Classroom Rules

RESPECT THE EDUCATIONAL PROCESS AND EVERYONE IN IT AT ALL TIMES

- 1) Respect the room by helping to keep it clean – put trash in its place and help put labs away.
- 2) Keep the language clean and positive.
- 3) No cell phones. OFF/AWAY does Not mean hold phone on lap or pocket text! I want you present!
- 4) No distracting others from learning. You don't get to steal their experience or education.
- 5) No Food. Be discrete with gum, candy, snacks. Bottled juice, soda, water (with a cap) okay!
- 6) No Sleeping!

Copying others work is (1) gross violation of our trust, (2) degrades your integrity though dishonest habits, and (3) discounts your ability to learn the material, practice the concepts , and ultimately prepare you for the assessments, **Don't Cheat!**

You are expected to conduct yourself with integrity. If you cheat on any assignment or quiz, you violate a trust and ruin your own chance for truly being successful; please make wise decisions. I never expect or want you to “google” an answer – internet answers will garner a zero grade; I am much more interested in what you think, not what you find on the internet. Take pride in accomplishing academically rigorous problems on your own. **I will support you however you need!**

It is my hope that this class will provide unique and valuable learning experiences for you; however, you must be willing to work hard, try new and creative ideas, and be positive for the class to be meaningful. Your sincere participation is essential if you wish to make the class the unique learning situation it is designed to be. Get involved to have fun learning.
